ACKNOWLEDGEMENTS

The University of Medical Sciences is now slightly over one year old. During this period, it has witnessed substantial growth and development that we can now proudly beat our chest and say that this noble University has come to stay. Let me begin therefore by paying tribute to the originator and the brain behind the idea of this University which is no person other than the highly revered and progressive Executive Governor of Ondo State, His Excellency, Dr. Olusegun Mimiko, MB, ChB (OAU, Ile-Ife), CON the only human Iroko in Nigeria. Surely, when the history of this University is written, and the development of pioneering health infrastructures in this country is choreographed, the name Dr. Olusegun Raman Mimiko will ring loud and clear.

I also wish to thank those who have worked tirelessly behind the scenes to make this project a reality. And just a few will be mentioned here. HRM Kabiyesi Oba Victor Kiladejo Jilo III has worked on this project as if his very existence depends on it. Sir, we are indeed, very grateful and we pray that the Almighty Lord will continue to bless and protect you as you take the Ondo Kingdom to greater heights of development. The Chairman of Council, Distinguished Emeritus Professor O. O. Akinkugbe is not only the Chairman, he is also the Chief Advisor of the University, and the Chief Architect of many of the milestones identified for the University. We are very grateful to you sir for what you have been to this University.

I also wish to thank the Commissioner of Health, Dr. Dayo Adeyanju, his pioneering role in ensuring the take-off of the University can never be forgotten. We are also grateful to the Commissioner of Education, Arc Jide Adejuyigbe and the Commissioner for Finance, Chief Yele Ogundipe who have continued to function as unpaid Chief Disciples of the University. I would also like to acknowledge the uncanny foresightedness of the much respected High Chief Olusola Adeduro, the Sasere of Ondo Kingdom. Chief Adeduro is not only a member of the Governing Council of the University, he is also an ambassador plenipotentiary of the University. Indeed, High Chief Adeduro has not only donated some funds to enable the payment of the School fees of one of our students, he has donated his entire seating allowance as a member of the University Governing Council as a Trust-fund to assist the University's future development.

The foundation of a new University is only as strong as the quality of its founding Administrators, Faculty, Staff and Students. I will like to thank the founding Registrar, Librarian, Bursar along with other Administrative Directors, Deans, Faculty, Staff and Students for their sacrifice and contribution to making this vision a reality. The history of the University cannot be told without the leadership, strength, perseverance and support you have given to this University, you will be remembered by generations to come for your role in the establishment of this institution.

I will like to acknowledge the many donors to the University under the "Friends of UNIMED Network (FUN) and the Friends of UNIMED Fund (FUF)" for the purpose of obtaining the resources to grow the University to attain its mission and vision statements in light of the global recession and the dwindling Nigerian Federal and State resources. I would like to acknowledge the Ondo Development Committee (ODC) for all its support, donations, visitations and promise to help take the university to world class status. I would be remiss if I do not acknowledge and highlight the nobility of purpose and patriotism of one man. He is the revered Chief I. F. Akintade, the Saibi Gogou of Ondo Kingdom. Chief Akintade is not only a Super-Friend of the University but a leading benefactor because of his magnanimity. Chief Akintade's donation will go a long way in shaping the futures of our current and future graduates and the effects of his generous donation will be felt for generations to come.

Thanks to all once again!

Prof. Friday Okonofua, FAS
Vice Chancellor

NATIONAL ANTHEM

Arise, O Compatriots,
Nigeria's call obey
To serve our fatherland
With love and strength and faith
The labour of our heroes past
Shall never be in vain
To serve with heart and might
One nation, bound in freedom
Peace and Unity

O God of creation,
direct our noble cause
Guide our leaders right,
Help our youth the truth to know
In love and honesty to grow
And living just and true
Great lofty heights attain
To build a nation, where peace
And justice shall reign

NATIONAL PLEDGE

I pledge to Nigeria my Country
To be faithful loyal and honest
To serve Nigeria with all my strength
To defend her unity
And uphold her honour and glory
So help me God.

UNIVERSITY OF
MEDICAL SCIENCES
ONDO CITY

VISION, MISSION, OBJECTIVES AND CORE VALUES

VISION

The vision of UNIMED is to be a thriving medical and health Sciences University locally, nationally and internationally recognized for excellence and innovation in health education and research and for ability to translate research findings for the improvement of health in communities with high burden of diseases.

MISSION

The mission of the University of Medical Sciences (UNIMED) is to provide exceptional quality and comprehensive health care and integrated education and research in all health-related sciences, to expand access to compassionate and high quality health care for underserved populations, and to lead the scientific pathway for reducing the burden of diseases in our areas of operation.

CORE VALUES

- ?Excellence & Discovery
- ?Innovation and Transparency
- ?Diversity & Inclusion
- ?Respect & Collegiality

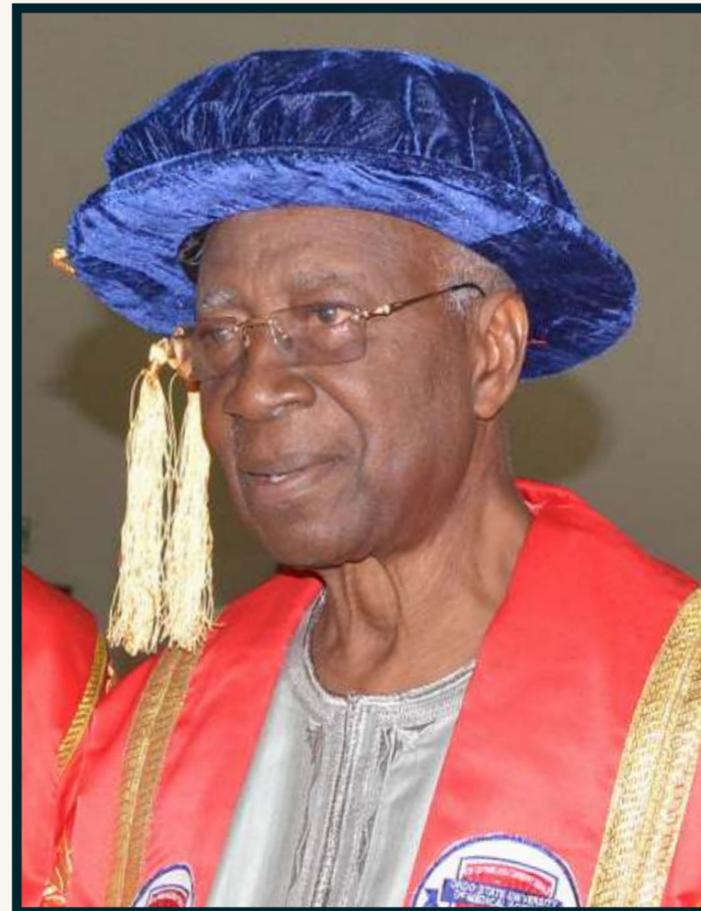

THE VISITOR

His Excellency,
Dr. Olusegun Mimiko, CON
Executive Governor of Ondo State and The Visitor

PRO-CHANCELLOR

Emeritus Prof. Oladipo O. Akinkugbe, CFR
MD, D.Phil, FRCP, FWACP, FAS, NNOM, Officer de l'Ordre
National de la Republique de Cote d'Ivoire
Pro-Chancellor and Chairman of Governing Council

Professor Friday Okonofua, FAS
B.Sc. (Hons) (Ife), MB ChB (Ife), PhD (Karolinska),
FWACS, FMCOG, FICS, FRCOG addendum (UK)

VICE-CHANCELLOR, UNIMED

Professor Friday Okonofua, MD, PhD, ad eundem FRCOG, is a medical doctor and a professor of obstetrics and gynecology at the University of Benin for many years. He is a fellow of the West African College of Surgeons, the Nigerian Postgraduate Medical College, the International College of Surgeons, the International Health program at Harvard University, and the Royal College of Obstetricians and Gynecologists. He also has PhD in International Health from the Karolinska Institute in Stockholm, Sweden. He is a Fellow of both the Nigerian Academy of Science (FAS) as well as the New York Academy of Science.

Okonofua commenced his academic career as Lecturer 1 in the Department of Obstetrics and Gynecology at the Obafemi Awolowo University in 1986. He served as the Acting Head of Department between 1987 and 1992, and rose to the post of Professor in 1992. He transferred his services to the University of Benin in 1996, where he had been the Head of Department, Dean, Provost, and member of the University's Governing Council.

He has also been Secretary of the Faculty of Obstetrics and Gynecology of the National Postgraduate College of Nigeria, as well as the Secretary-General of the Society of Gynecology and Obstetrics of Nigeria. Between April 2005 and November 2009, he served as the Executive Director of the International Federation of Gynecology and Obstetrics (FIGO), supervising projects management in the 110 member countries of the organization. *He was also a Honorary Adviser on Health to President Olusegun Obasanjo from July 2006 to May 29, 2007.*

Professor Okonofua is a champion of women's health, a discipline where he has published more than 200 refereed articles.

He is a recipient of more than 40 research grants, and he is a member of several international organizations and committees, including the editorial board of the British Journal of Obstetrics and Gynecology, where he has served for more than 12 years. He has attended and presented scientific papers in 100 conferences in up to 40 countries around the world. He is a reviewer to 20 international journals, and a technical consultant to many international agencies, including the World Health Organisation, the Macarthur Foundation and the Ford Foundation.

He is a recipient of several honors, including the Distinguished Alumnus Award of the Obafemi Awolowo University, Special Achievers Award by the Nigerian Television Authority, Distinguished Services Award by the Society of Gynecology and Obstetrics of Nigeria, Award of "the most outstanding professor of the people" by the Students Union Government of the University of Benin.

He was also recently honoured by the VC of UNIBEN for contributions to the success of the university where he served in many capacities for many years before he was appointed the pioneer VC of UNIMED by Governor Olusegun Mimiko.

Okonofua was also on December 2, 2016 honoured with the chieftaincy title of Gbekoleke of Ondo Kingdom by the Osemawe of Ondo Kingdom, Oba (Dr) Victor Kiladejo.
He is married with children.

Dr. (Mrs.) Eunice F. Oyebade, mni
B.Ed. (Ibadan), M.Ed. (UNIBEN), Ph.D (UNAD)

REGISTRAR, UNIMED

Born in Ondo on October 20, 1953, Dr. (Mrs.) Eunice 'Funke Oyebade attended St. Louis Secondary School, Ondo between 1967 -1971 for her Secondary education, University of Ibadan for Bachelor of Education in Botany between 1974 -1978, She later bagged her Masters degree in Educational Administration 1985, had her Post graduate programme in Doctor of Philosophy in Education management in 2000s and was equally at the National Institute for Policy and Strategic Studies (NIPSS) Kuru, Jos, in 2006 where she bagged an award as Award for the overall best graduating Participants for Course 28 of 2006 as well as became recipient of the prestigious MNI title.

From a humble beginning of an Administrative Officer I in November 1982 at the Federal University of Technology, Akure (FUTA), Dr. Oyebade rose through ranks to become Registrar, serving a two term between June 2001 and June 2011. Between 1st June, 2012 to 17th July, 2014, she was Director, Advancement Centre; Secretary to the University Advancement Board of the same institution.

Between 5th June, 2011 and 31st May, 2012 she was on sabbatical as Director of Advancement office, Adekunle Ajasin University, Akungba, Akoko. She is presently a member of the governing council of the institution.

Despite being a University Administrator whose job has majorly revolved around administration, Dr. Oyebade has supervised no fewer than eight (8) Masters of Business Administration Students till graduation at Federal University of Technology, Akure (FUTA).

She is a Fellow of the Nigeria Institute of Management, Institute of Personnel Management of Nigeria, Society of Educational Administrators of Nigeria, Chartered Institute of Public Administrators of Nigeria and The Managers Institute of Chartered Training, among others.

She is married with children.

Mr. Abraham Oladiran Fabusuyi
HND, Bsc, MBA, NIM, ACTI, FCA

ACTING BURSAR, UNIMED

Mr. Fabusuyi, Abraham Oladiran was born 30th September, 1960 at Ilesa, Osun State. He started his career as an Audit Clerk at Oladipo Ige & Co in 1983 and worked at three other reputable organizations between 1986 to 1989 before joining UNILAG Consult University of Lagos, Akoka as Higher Executive Officer (Accts) in 1995. He rose to the position of an Accountant at UNILAG Consult.

He left UNILAG Consult in April 2005 and joined The Federal University of Technology, Akure in May, 2005 as a Principal Accountant. As a result of his brilliance in his job he was made the Chief Accountant of The Federal University of Technology, Akure in 2008.

He joined University of Medical Sciences Ondo in November 2015 as the Acting Bursar.

Mr. Abraham Fabusuyi holds several academic and professional qualifications- MBA, Fellow Chartered Accountant (FCA), Associate, Chartered Institute of Taxation of Nigeria (ACTI) and a Member, Nigerian Institute of Management (MNIM)

He is married with three children

Mr. Akinfolarin William Abiodun
B.L.S, Grad. Cert. Edu. (ABU) MLS (Ibadan), CLN

LIBRARIAN, UNIMED

Mr. Akinfolarin William Abiodun was born at Odigbo, in Odigbo Local Government Area of Ondo State on December 25, 1952. He holds a Bachelor of Library Science from Ahmadu Bello University, Zaria and a Master of Library Studies from the University of Ibadan.

He started his career at the Kashim Ibrahim Library, Ahmadu Bello University, Zaria and then joined the services of the then Obafemi Awolowo University, Ado-Ekiti (now Adekunle Ajasin University, Akungba-Akoko) in 1983 as a Librarian II. He rose to the enviable position of the University Librarian in 2005, a position he occupied till March 31, 2015. Aside from been a Principal Officer of Adekunle Ajasin University, Akungba-Akoko, he was also a member of the Governing Council of the University from 2009-2013.

He is currently on a contract appointment with the University of Medical Sciences, Ondo as the Acting University Librarian.

Mr. Akinfolarin as a seasoned Academic, has co-authored many books and published articles in reputable local and foreign journals. He has also attended many local and foreign conferences, workshop and seminars. He is a member of many professional bodies and a Certified Librarian of Nigeria (CLN).

He is a pioneering member of staff of three universities, namely: Obafemi Awolowo University (1983), Ado-Ekiti, Adekunle Ajasin University Akungba-Akoko (1999) and University of Medical Sciences, Ondo (2015). He is also a recipient of so many awards.

Mr. Akinfolarin is married to Dr. (Mrs.) Comfort A. Akinfolarin a lecturer at the Department of Educational Management, Adekunle Ajasin University, Akungba-Akoko. The marriage is blessed with good children.

**CHAIRMAN,
GOVERNING COUNCIL OF UNIMED**

The Emeritus Professor Oladipupo Akinkugbe, CFR, MD, D.Phil, FRCP, FWACP, FAS, NNOM, Officier de l'Ordre National de la Republique de Cote d'Ivoire, is a multiple award-winning and one of the most respected and distinguished academic physicians in Nigeria.

He is Emeritus Professor of Medicine at the College of Medicine, University of Ibadan. He has served on several international bodies and he is a member of the World Health Organisation Technical Advisory Committee on Health Research as well as an Honorary Fellow of Balliol College, Oxford.

Born in Ondo on July 17, 1933, he attended Government College Ibadan (1946-51), University College Ibadan (now University of Ibadan) (1951-55), University of London (1955-58), University of Liverpool (1960), and Oxford University (1962-64). He became Professor of Medicine, University of Ibadan (1968); Dean of Medicine (1970-74); Visiting Professor of Medicine at Harvard (1974-75); Oxford (1981-82) and Cape Town (1995); Principal, then Vice Chancellor, University of Ilorin (1975-78); Vice Chancellor, Ahmadu Bello University (1978-79); Pro-Chancellor, University of Port Harcourt (1986-90); Foundation Chair, Joint Admissions and Matriculation Board (JAMB) and Chairman, Management Board, University College Hospital, Ibadan (2000-2003).

He is a member of various international medical and scientific panels, and author of many papers on hypertension and renal diseases in national and international journals. In 1989 he received the Searle Distinguished Research Award for his contributions to hypertension in black populations; and in 2004 he received the Boehringer Ingelheim Award of the International Society of Hypertension. He was made Honorary Fellow of Balliol College, Oxford University in 2009 and has Honorary Doctorate from six Nigerian universities, including his alma mater, the University of Ibadan. He has also been conferred with traditional chieftaincy titles from Ile-Ife, Ondo, Ibadan and Ijebu-Igbo.

He is married to Professor Folasade Akinkugbe (nee Dina) and they have two sons and a set of grand-twins.

Professor Tolu Odugbemi
OON, NNOM, Hon. D.Sc, Ph.D (Sheffield),
MD (Lagos), DFMC, PNMC, FAS, FRCPath (UK),
FMCPath (Nig.) FWACP (Lab. Med.)

**MEMBER,
GOVERNING COUNCIL OF UNIMED**

Professor Tolu Odugbemi hails from Oke-Igbo in Ile-Oluji/Okeigbo Local Government of Ondo State, Nigeria. After a brilliant primary and secondary school education, he enrolled in the College of Medicine of the University of Lagos to read Medicine during which he also registered as a Pioneer Student of Microbiology. He emerged with a B.Sc. (Hons) degree Microbiology in 1970 and the MBBS Degree in 1972. He also obtained a Diploma in Bacteriology from the University of Toronto, Canada (1976) as well as Doctor of Philosophy Degree (Ph.D) University of Sheffield (1978) and Doctor of Medicine (M.D) Degree in 1982 from the University of Lagos (UNILAG). He completed his residency training in Medical Microbiology at the Lagos University Teaching Hospital, Idi-Araba and subsequently qualified as a Fellow of the West African College of Physicians (FWACP) in 1976. He is also a Foundation fellow of the National Postgraduate Medical College (FMCPath) and a Fellow of the Royal College of Pathologists, U.K (FRCPath).

He was the foundation Professor and Head of the Department of Medical Microbiology and Parasitology, Faculty of Health Sciences, University of Ilorin from 1983-1985, Professor and Head Department of Microbiology and Parasitology, College of Medicine of the University of Lagos at various times. Honorary Lecturer, Department of Medical Microbiology, University of Sheffield, UK, 1976-1978, Guest Researcher, Centers for Disease Control (CDC), Sexually Transmitted Diseases, Research Laboratory, Center for Infectious Diseases, Atlanta, Georgia, USA, 1981-1982. He is also a former Honorary Consultant Microbiologist, Lagos University Teaching Hospital and the University of Ilorin Teaching Hospital.

Professor Tolu Odugbemi, is a researcher who has made many land mark contributions to medical profession and humanity through his outstanding research findings. He has to his credit over 200 publications in National and International Journals and Articles of excellent research in Microbiology and other areas. He has also played a key role in dissemination of medical research findings by founding the Nigeria Journal of Health and Biomedical Sciences. He had previously served as Editor-in-Chief of the Nigerian Quarterly Journal of Hospital Medicine and as Editorial consultant to other medical journals and member of several professional bodies.

A seasoned administrator, he served as Provost, College of Medicine of the University of Lagos (CMUL) 1997-2000, President National Postgraduate Medical College of Nigeria (2002-2003). He is a former Vice-Chancellor of the University of Lagos (2007-2010) and also the Ondo State University of Science and Technology (OSUSTECH) Okitipupa, Nigeria (2010-2015). Prof Odugbemi has previously served on the governing councils of the University of Lagos, Ondo State University of Science and Technology, West African College of Physicians, Nigerian Academy of Science and the Medical and Dental Council of Nigeria. As President of the National Postgraduate Medical College of Nigeria he was also the Chairman of the Governing Board of that institution.

Prof. Odugbemi has received many accolades nationally and internationally for his distinguished scholarship and outstanding contributions to the field of medicine and uplift of Education. He was honoured with the Nigerian National Order of Merit (NNOM) and the Officer of the Order of Niger (OON) awards on 6th December, 2007 and 14th February, 2008 respectively by the President of the Federal Republic of Nigeria. He is a Fellow of the Nigeria Academy of Science, a Distinguished Fellow of the National Postgraduate Medical College of Nigeria (DFMC) and a recipient of an honorary Doctor of Science (Hon. D.Sc) degree from his alma mater, The University of Sheffield, United Kingdom. He also holds the traditional chieftaincy titles of Alatunse of Okeigbo, Gbekoniyi of Ondo Kingdom and Fiwajoye of Oke-Ayedun Ekiti .

Professor Fola Esan

MEMBER,
GOVERNING COUNCIL OF UNIMED

Professor Fola Esan graduated with an MB BS with honours from the University College, Ibadan (University of London) in 1962 gaining distinctions in Pathology and Obstetrics and Gynaecology. After postgraduate training in Ibadan, Nigeria, London, UK, and in the USA (New York and San Francisco), he was appointed Professor of Haematology in Ibadan in 1975, a position from which he voluntarily retired in 1988. He served as the Director (re-designated Director-General) at the National Institute for Medical Research, Yaba, Lagos, 1986-88. He then worked in academic institutions in the Middle East (Saudi Arabia and UAE) and returned home to set up (with Professor G. B. Ogunmola, a retired professor of chemistry) the Institute of Genetic Chemistry and Laboratory Medicine in Ibadan.

Professor Esan was appointed Provost, College of Medicine, Ekiti State University between April 2009 and July 2013 with a remit to resuscitate the suspended College where he was employed as a Professor. His area of specialization in Haematology is the haemoglobinopathies and thalassaemia for which he received grants and awards including the Langley Memorial Prize of the London School for Tropical Medicine and Hygiene in 1974. He was the Foundation Secretary of the Nigerian Society for Haematology and Blood Transfusion and later served two terms as President. He was elected Fellow of the Nigerian Academy of Science in 1982 and have served in various capacities including Editor of The Proceedings, member of Council, Lead Person for the Forum on Evidence-based Health Policy Making, Chairman, Health Sciences Committee and IAMP Contact Person and member of the IAMP Executive Committee.

He was very instrumental in shaping the faculty of pathology of the National postgraduate Medical College of Nigeria. He held several important positions in the Nigeria Medical Association and has significant research contributions on the Clinical, biochemical and molecular studies on abnormal hemoglobin's especially sickle cell anemia.

He is currently a Director at Institute of Genetic Chemistry and Laboratory Medicine.

High Chief Johnson Olusola Adeduro

MEMBER,
GOVERNING COUNCIL OF UNIMED

High Chief Johnson Olusola Adeduro was born in Ondo to Late High Chief Samuel Adeduro, the Adaja of Ondo and Madam Comfort Olakunbi Adeduro (nee Famutimi, the Late Aruwa of Ondo) on December 2, 1942.

He started his primary education at St. Matthew's School, Owena and finished at St. John's Primary School, Ondo in 1958, thereafter he attended Jubilee Modern School the following year and graduated in 1961. In 1962 he proceeded to Ondo Boys' High School (O.B.H.S.) and passed out in 1965. He proceeded to United States of America in 1969 and enrolled at Howard University, Washington D. C. and graduated with flying colours with a Bachelor of Science, Chemistry in 1973.

He finally came back to the country in 1976 and took up an appointment with the defunct Food and Drug Administration Department of the Federal Ministry of Health (now NAFDAC). After exactly 10 years of meritorious service, he withdrew his service from the Federal Ministry of Health.

High Chief Adeduro formed a corporate organization called JOLUS LIMITED. The company had been growing from strength to strength. He is also the Chairman (CEO) of Sofuros Nig. Ltd. (A Real Estate Company) and a Director of defunct Trust Bank of Africa where he served as Chairman of several committees of the Board. He is also the Chairman of Transatlantic Property Management Company Limited.

He is a member of some social organisations among which is Club 11 of Nigeria (Former President) which he founded with close friends, Chairman of Landlord Association of Rumudaolu Market Road, Port Harcourt. He is a Patron of some Social Organisations among which are Ondo Youth Association (OYA) and The Great Mercury Club of Africa. He is devout Christian and a member of Brotherly love Circle of St Stephen's Cathedral Church, Ondo.

For his outstanding performance in all facets of life, High Chief Adeduro has received several awards. Some of the awards are; a merit award by The Diocese of Anglican Communion at the year 2005 Synod; a merit award as Chief Launcher of Ekimogun Day 2005; a merit award from Ondo Development Committee on Ekimogun Day 2007. Others include a merit Award on 90 years founder's Day Celebration of Ondo Boys' High School, Ondo; a Distinguished Award at the 2011 Edition of High Chief Olabanji Akingbule Public Lecture and Awards; Award of Excellence from Rotary International.

High Chief Adeduro is a philanthropist. As a reward for his excellent performance and his commitment to the development of his hometown, he was installed the Sara of Ondo Kingdom by His Royal Majesty, Oba Dr. Victor Kiladejo CFR, Jilo 111, the Osemawe and Paramount Ruler of Ondo Kingdom in 2008.

High Chief Adeduro is happily married to his childhood friend, confidant and jewel, Margaret Oluwafunke Adeduro (nee Adeyemi), a retired Deputy Director, Rivers State Ministry of Health. The marriage is blessed with children.

GOVERNING COUNCIL OF UNIMED

Dr. (Mrs.) Kofoworola Olutoyin Odusote
(nee Roberts)

MEMBER,
GOVERNING COUNCIL OF UNIMED

Dr Kofoworola, Olutoyin Odusote was born in July 1948 to the family of Late Lotu Omoba of Ondo, Prince Adedayo Roberts. After her secondary education at St Annes School, Ibadan, she proceeded to study medicine at the University of Ibadan in 1967 from where she graduated in 1973. She had postgraduate specialist training in Family Medicine at the Lagos University Teaching Hospital and obtained the Fellowship of the West African College of Physicians (FWACP) in 1991. She also had clinical exposure at the Royal Victoria Hospital and Montreal Children Hospital, Montreal, Canada.

She worked for many years as Chief Medical Officer and Consultant Family Physician at the Lagos University Teaching Hospital. During this period she was also a part-time lecturer and examiner at the Institute of Child Health and Primary Care of the College of Medicine, University of Lagos. In 1999, she was appointed the Director of Health Services, University of Lagos and transferred her services from the Teaching Hospital to the University. She worked in this capacity until her retirement in 2008.

As Director of Health Services, Dr Odusote brought in a number of innovations to enhance the services offered at the University Medical Centre and ensure that the community receives the best medical care in an appropriate setting and at a cost the University can afford. During this period, she represented the Vice Chancellor on the Board of the Lagos University Teaching Hospital, Idi-Araba, Lagos.

Dr. Kofoworola Odusote is a member of many professional associations and is the immediate past Honorary Treasurer of the West African College of Physicians. She is also an examiner at the Fellowship examinations in the Faculty of Family Medicine of the College. Currently, she is the Chief Executive Officer of the Winiseph Care Home for the elderly in Ikeja, Lagos State, which she established after her retirement from University services. Also, she is part-time Consultant and postgraduate trainer in Family Medicine at both the Lagos University Teaching Hospital and the University of Lagos Medical Centre. She is a member of the Chapel of The Healing Cross, Idi-Araba and immediate past Leader of The Fellowship of Peace and was a member of Council of the Chapel.

She is happily married to Professor Kayode Odusote and blessed with children and grandchildren.

Dr. Olabisi Jagun
MD; FACP

MEMBER,
GOVERNING COUNCIL OF UNIMED

Dr. Olabisi Jagun, MD; FACP graduated from the University of IFE with a medical degree and interning at the University College Hospital, she later attended the University of London's School of Hygiene and Tropical Medicine. She continued her medical training at Howard University Hospital where she completed her internship and residency in Internal Medicine and becoming Chief Medical resident in Internal Medicine.

She completed a fellowship in Nephrology and Hypertension at the same institution. She is double board certified in Internal Medicine and Nephrology. In 1999, she was conferred a Fellowship of the American College of Physicians

Olabisi Jagun, MD; FACP is currently President and CEO of the Foundation for Combined African Medical Missions (FCAMM). She is also Attending Physician, Department of Emergency Medicine at Centra Southside Community Hospital, Farmville, VA and Davis Memorial Hospital, Elkins, WV. Previously, she was Chief of the Division of Nephrology and Hypertension, Howard University Hospital, Washington, D.C. and Medical Director, Department of Emergency Medicine, Greater Southeast Community Hospital, Washington, D.C.

Dr. Jagun has demonstrated strengths in leading diverse medical teams and is very active in the Medical Societies of both the District of Columbia and the state of Maryland. She volunteers on the Emergency Preparedness Committees of both the District of Columbia and the state of Maryland. Dr. Jagun has chaired several hospital and local committees; recipient of numerous outstanding physician awards in recognition of her immense contribution to the improvement of community health both in the USA and abroad. Her tremendous body of work, knowledge of the history of medicine, and reputation for working tirelessly to ensure the highest standards of medicine in the best traditions of the profession, is well above board.

Dr. (Mrs.) Chinelo Nwosu

MEMBER,
GOVERNING COUNCIL OF UNIMED

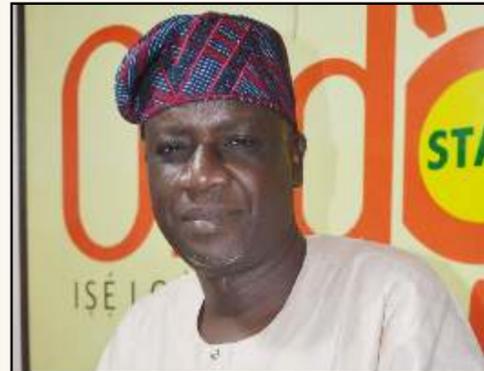

Dr. Chinelo Nwosu is a Biochemist and contributing to national development at the National Universities Commission (NUC) where she was nominated to represent the Commission on the Council of University of Medical Sciences Ondo, Ondo State.

Her academic career started in 1999 when she was called upon by the University of Port Harcourt to join and strengthen her former department as a lecturer. She later relocated to Abuja and joined the National Universities Commission in 2009 and within, five years of her joining the NUC, was acknowledged the best staff in the Research and Innovation Department because of her diligence to work and passion to raise standards in the Nigerian University System (NUS). It is her desire to see the NUS raising universities that are world class and producing globally competitive graduates.

She carried out her terminal degree research between 2003 and 2004 as a Fulbright Scholar at the Cancer Research Institute of University of Nevada, Las Vegas USA working on anticarcinogenic agents in natural food products. Prior to her sojourn to the US, she had acquired two Master of Science degrees, one from the University of Port Harcourt in Biochemistry (Nutrition and Toxicology) and University of Surrey Guildford, United Kingdom in Clinical Biochemistry and Molecular Biology.

She was the University of Port Harcourt's 10th Valedictorian during the convocation ceremony, having topped her class that year as the best graduating student from the Faculty of Science, and Department of Biochemistry respectively in 1990. She also graduated with distinctions and credits at her WAEC exam as well as earning several awards during her secondary school graduation and played various leadership roles.

Aside from her professional and academic achievements, Mrs. Nwosu and her spouse, Br. L. E. Nwosu (SAN) have five beautiful children from their union of 29 years. As Christians, they believe in serving God through acts of charity particularly in the empowerment of women and youths as well as providing scholarships to deserving children. Thus, she has acquired so many other non-biological children through their service to God and humanity.

Architect Richard Olajide Adejuyigbe
(B.ARCH., MNIA)

MEMBER,
GOVERNING COUNCIL OF UNIMED

Architect Richard Olajide Adejuyigbe was born in Akure, Ondo State and started his Educational pursuit at St. Thomas's Anglican Primary School, Akure in 1964. He had his Secondary School Education at Anglican Grammar School, Iju-Itaogbolu and Olivet Baptist High School, Oyo. He proceeded to Federal Government College, Ilorin for his Advanced Level Certificate in Education. He was at the University of Nigeria, Nsukka between 1978 and 1983, where he graduated with a Bachelor of Architecture Degree. He became a registered Architect in 1986.

Architect Adejuyigbe has worked at several levels in different firms at different times, among which are, Marker Design Associates, Akure; Allied Architects, Ibadan; Archi-Hives, Lagos; Ajayi Samuel & Associates, Lagos; Ministry of Defense, Lagos. Well focused and determined, Arc. Olajide Adejuyigbe in 1992, left to establish his own practice in Lagos named Versatile Consultants.

Architect Adejuyigbe's knack for professionalism is evident in his handling of a lot of projects, some of which are, The temporary site, Federal University of Technology, Akure Master Plan; Extension of the Library of Federal University of Technology, Akure to accommodate 2500 readers; Institute of Hotel Tourism Training, Lagos, Lagos State; Federal Medical Centre, Abeokuta, Ogun State; Oba Market, Benin City, Edo State.

Other projects handled by Architect Adejuyigbe include, Federal Ministry Secretariat, Abuja; Naval Training Institute, Ile-Ife, Osun State; Bachelor Officers' Quarters, Nigerian Navy; Residential Quarters, Naval School, NNS Quorra, Lagos; Corporal and Below Quarters, 43 Engineer Brigade, Jos, Plateau State; Ondo State Public Service Training Institute, Ilara-Mokin, Ondo State.

He is a member of the many professional bodies which include, Architects Registration Council of Nigeria; Nigeria Institute of Architects; Real Estate Development Association of Nigeria.

Architect Olajide Adejuyigbe veered into politics because of his belief that the worth of a man's life can only be truly measured by the contributions he has made in uplifting the lives of his people in particular and solving societal problems in general. So far, he has managed various political offices among which was the Caretaker Chairman, Akure South Local Government and at present the Commissioner for Education in Ondo State.

Arc. Olajide Adejuyigbe is happily married to Barrister Adeoti Adejuyigbe. The marriage is blessed with wonderful children.

Hon. Dr. Adedayo Kazeem Adeyanju

MEMBER,
GOVERNING COUNCIL OF UNIMED

Dr. Adedayo Kazeem Adeyanju was born to the family of late business mogul, Alhaji Adeyanju and consummate woman, Alhaja Adeyanju over four decades ago in the ancient Ondo kingdom. Young Adedayo began his academic pursuits at Adeyemi Primary School, Ondo, passed out in flying colours before attending the prestigious Saint Joseph's College, also in Ondo.

He studied medicine at the premier University of Ibadan and thereafter, qualified as doctor with specialization in public Health. He later obtained a Master's Degree in Public Health from the Obafemi Awolowo University, (OAU) Ile-Ife. Dr. Adeyanju started his career as a house officer at the State Specialist Hospital, Akure and proceeded for his mandatory National Youth Service Corps Scheme at Abakaliki, Ebonyi State after which he returned to Ondo State and joined the service of the Ondo State Government.

His thirst for excellence saw him being appointed at different times as the State Coordinator for HIV/AIDS, Malaria, Special Assistant to the Ondo State Governor on Health, General Manager, World Bank assisted Community and Social Development Agency and now the Honourable State Commissioner for Health.

As State Coordinator for HIV/AIDS, he embarked on aggressive, purpose-driven and result-oriented activities which led to a remarkable decline in the prevalence of HIV/AIDS from 6.7% in 2001 to 2.3% in 2003. As State Coordinator, Malaria Control Programme, he initiated series of programmes, awareness, and sensitization which not only brought results from the government, but equally earned him recognition to represent the country in Bangkok, Thailand. As Special Assistant to the Ondo State Governor on Health, Dr. Adeyanju was privileged to conceptualize and designed the homegrown Abiye Safe Motherhood Programme as well as coordinated its implementation. He has seen to the successful scale up of Abiye Safe Motherhood Programme in the remaining 17 local government areas of the state.

Abiye Safe Motherhood Programme was adopted by the World Bank as a benchmark for the African continent in tackling infant and maternal mortality as well as achieving the millennium Development Goals four and five. As the pioneer General Manager of the Ondo State Community and Social Development Agency (ODCSDA), Dr. Dayo Adeyanju conceptualized a structure for the Agency that ensured poor communities have access to services of human development index.

Also, Dr. Adeyanju has worked hard to ensure the successful take-off of the state Medical Village and that of the University of Medical Sciences, Ondo.

Interestingly, his tenure as Commissioner for Health has witnessed many profound initiatives in line with the CARING HEART programme of Governor Mimiko to provide exceptional and qualitative service for the teeming people of the state, where they live, work and play.

Dr. Adeyanju is widely travelled and has attended trainings, conferences both at home and abroad which included ASCON in Badagry, Lagos Business School, Harvard School of Public Health, Harvard University, Boston, USA with a certificate in improving quality Health services among others.

Dr. Adeyanju has won several awards and recognitions from institutions and bodies in Nigeria. These include: NYSC State Award, Rotary Entrepreneur of the Year, Ansarudeen Youth Muslim Torchbearer, Excellence in Community Health by Rotary Club, Akure and the OSRC NUJ Gold Medal Award, Zik International Award by Business Reports International, Abuja, Dr. Kwame Nkrumah Distinguished African Public Service Order of Merit Award, Leadership Excellence Award by Trace News Magazine, African International Role Model Leadership Gold Award by African Times Communications, NUJ 2014 Commissioner of the year. Others are from the School of Sciences of the Federal University of Technology Akure, Pharmaceutical Society of Nigeria, Ondo State Branch and the National Association of Ondo State Students (NAOSS) to mention a few for excellence service delivery.

Dr. Adeyanju belongs to many associations. They are the Nigerian Medical Association (NMA), America Public Health Association, Global Council on Health, Aristocrat-Club 90 NASFAT, among others.

He is happily married with children.

UNIVERSITY OF
MEDICAL SCIENCES
ONDO CITY

Gani Fawehinmi Diagnostic Centre

Emergency Information Centre

BRIEF HISTORY OF THE UNIVERSITY

On December 8, 2014, the Executive Governor of Ondo State, His Excellency, Dr. Olusegun Mimiko, signed the Ondo State University of Medical Sciences Law 2014. In March 2015, Mr Governor approved the appointment of the first Vice-Chancellor, Professor Friday Okonofua, FAS and the first Registrar, Dr. (Mrs) Eunice Funke Oyebade, mni. The existing "Medical Village", comprising the Mother and Child Hospital, Trauma Centre, the Kidney Care Centre and the Gani Fawehinmi Diagnostic Centre, was to be integrated into the University and formed its take-off administrative and resource base. The surrounding 100 hectares of land was acquired by the government to allow future expansion of the University.

At the time of the appointment of the Vice-Chancellor and the Registrar, not much physical, infrastructural, academic and administrative planning had taken place and the National Universities Commission (NUC) had therefore not been approached for formal recognition of the University. With the instrument establishing the University by the Ondo State Government, the new University therefore approached the NUC for official recognition, which was given on April 22, 2015.

In presenting the letter of recognition to the Executive Governor, Dr Olusegun Mimiko, the Executive Secretary of the NUC said inter alia: "I wish to congratulate the Government and people of Ondo State for this establishment of the Ondo State University of Medical Sciences. With effect from 22nd April, 2015, the Ondo State University of Medical Sciences has been recognised by the National Universities Commission as the 40th State University and the 139th University in Nigeria. It is however advised that the University should invite the NUC to assess the resources and facilities before the enrolment of students into the medical programmes".

Despite the recognition given by the NUC, the University could not begin official administrative work until July 2015, due to resource and funding constraints. It was only then that some staff were appointed and the framework for administrative duties was established.

The Governing Council of the university under the able chairmanship of Emeritus Professor Oladipupo Akinkugbe, FAS, CFR was inaugurated by Governor Olusegun Mimiko on November 16, 2015 thus signalling the readiness of the university to commence academic activities.

On December 7, 2015, an advisory team of the National Universities Commission visited the university, apparently to appraise its readiness to commence academic activities. The NUC visit was followed shortly after on December 9 by the team of the Medical and Dental Council of Nigeria. The two regulatory bodies were satisfied by their findings even as they dropped hints of areas in which they expected further efforts. The MDCN later wrote to the UNIMED VC that it was impressed by what the university had on ground. In the letter, the MDCN Registrar, Dr. A.A. Ibrahim, said, "Following the advisory visitation to your university on Wednesday, December 9, 2015 by a team from the MDCN that inspected your facilities, personnel and curriculum of study, I write to convey Council's satisfaction with the ongoing efforts at properly establishing your medical school."

Barely one month after the NUC and MDCN visits, the University on January 5, 2016 released its first admission list while its pioneer students started arriving at their hall of residence on January 10, 2016. There is no stopping UNIMED from then on as various activities, including registration of students, orientation and commencement of

Trauma Centre

Mother and Child Hospital

Kidney Care Centre

Doctors' Residences

classes were accomplished in record time. A total of 192 pioneers students, spread across five programmes- Medicine, Dentistry, Anatomy, Physiology and Biochemistry- were matriculated on March 5, 2016. The University was also formally inaugurated by Governor Olusegun Mimiko on the same day.

Within its short life, the University of Medical Sciences, Ondo, has established itself as a stakeholder to reckon with in the health and education sectors. On June 15, 2016 the university held its First Distinguished Lecture, drawing to the campus top academics, distinguished medical practitioners and other stakeholders to listen to the Guest Lecturer, Emeritus Professor Kelsey Harrison, a former VC of the University of Port Harcourt.

On July 7, 2016, the university similarly attracted top government functionaries, academics, royal fathers, captains of industries and other citizens to the epoch-making launching of the Friends of UNIMED Fund (FUF). The scheme, FUF, is a novel effort by the university's managers to create a pool of friends who will contribute to the funding of the university. In its bare form, the FUF aims at raising one million friends who are expected to contribute at least One Thousand Naira annually to fund the university. The scheme has continued to excite Nigerians as well as attract donors who are eager to contribute far more than the minimum. And more than cash, UNIMED friends have contributed other items, including office equipments and other facilities. The biggest donor to the scheme so far is Chief Isaac Akintade, the Saibi Gogou of Ondo Kingdom, who has commenced construction of the multi-million naira Faculty of Basic Clinical Sciences building he pledged under the FUF.

Dr. (MRS) E. F. Oyebade, mni
Registrar

STATE OF THE UNIVERSITY OF MEDICAL SCIENCES (UNIMED):

Notes From The Vice-Chancellor

Introduction

It is with great respect and veneration that I address you after our first year of operation. I wish to, in a very special way, thank all those who made this University possible. In particular, I wish to thank the progressive, forward-looking and very dynamic Governor of the State, His Excellency Dr. Olusegun Mimiko for his visionary and bold efforts in establishing this first University devoted to the Medical Sciences in the whole of West Africa. Indeed, history will be kind to you, Sir, not only for this noble effort, but for the exemplary leadership you have provided in Ondo State, especially in health and educational transformation, which I am aware other States are still battling to study and to copy and emulate.

I also wish to thank those who worked with Mr. Governor in efforts to fulfill the aims and objectives of this unique University. I know there are many, but let me particularly mention the noble roles played by the Hon Commissioner for Health, Dr. Dayo Adeyanju, the Chairman of the Governing Council, Emeritus Professor O. O. Akinkugbe and the Osemawe of Ondo Kingdom, His Royal Majesty, Dr. Oba Victor Kiladejo. They have been my key advisers and supporters since I took office as Vice-Chancellor. I would also like to mention the Commissioner for Finance and the

Commissioner for Education, and indeed, all members of the University's Governing Council who have always stood like Rocks of Gibraltar behind every effort made by the University. I also wish to most sincerely thank our neighboring institutions, especially the Adeyemi College of Education and National University of Educational Planning and Administration (NIEPA) for the support they continue to provide to the University. Indeed, the Provost of the Adeyemi College of Education, Professor Ogen has stood like a veritable adviser, I will forever be grateful to him for being the unspoken Trojan Horse behind the University since its inception. Indeed, the University is keeping foundational records of these contributions. When the history of this University is finally written, the names of all contributors at this stage of its infancy will be written in gold.

University's Mission and Vision Statements

As this represents the first birthday of the University, it is appropriate that we re-state the mission and vision of the University.

The mission of UNIMED is: "To provide exceptional quality and comprehensive health care and integrated education and research in all health-related sciences, to expand access to compassionate and high quality health care for under-served populations, and to lead the scientific pathway for reducing the burden of disease in our areas of operation".

The vision of the University is "to be a thriving medical and health sciences University, locally, nationally and internationally recognized for excellence and innovation in health education and research, and for its ability to translate research findings for the improvement of health in communities with high burden of disease".

Our principal objective is to establish a 21st Century World-Class University of excellence in medical research, teaching and service delivery. I wish to let you know that the aforementioned mission and vision statements were developed after intense deliberations, and I to assure you, we are deeply committed to its actualization. This University will work assiduously and relentlessly to correct the mistakes that currently bedevil medical education and service delivery in this country. As Vice-Chancellor, I wish to assure you that I

will work with utmost patriotism and with deep commitment, transparency and accountability to achieve the best international benchmarks for the University within the shortest period of time.

UNIMED: Reflection on the First Year

As most of you probably know, the University was given formal recognition and Certificate of Recognition as the 140th Nigerian University by the National Universities Commission (NUC) in April 2015. However, the University did not go into full swing until July 2015. Since then we have made significant progress in all spheres. As at November 2016, the University has appointed a total number of 145 staff (Academic Staff 48, Senior Administrative and Technical Staff 62 and 37 Junior Staff including principal officers), we have also firmly organized and put all administrative and academic structures of the University in place.

The Council of the University was inaugurated by Mr Governor, His Excellency, Dr. Olusegun Mimiko, CON in December 2015 under the Distinguished Chairmanship of Emeritus Professor O. O. Akinkugbe FAS, NNOM. Since then, Council has had monthly meetings to deliberate on ways to move the University forward. Senate has also been fully constituted and is meeting regularly to plan and drive the academic programs of the University. Indeed, all Committees of Senate and Council have been fully established and are working well in accordance with the edict that established the University. The University is also building its administrative and academic infrastructures at a fast pace never before witnessed for newly established Universities in this country.

One of the major achievements of the University was the approval given to it by the NUC to begin five Academic courses; Medicine, Dentistry, Biochemistry, Physiology, and Anatomy following the visit of a Resource Verification Team from the Commission to the University in December 2015. The Medical and Dental Council of Nigeria (MDCN) also paid an advisory visit to the University in December 2015, and was impressed with the plans being put in place to establish the Medical and Dental programs of the university. The University has since been pursuing the implementation of the specific recommendations made by the NUC and MDCN teams to strongly establish its Medical and Dental programs.

Matriculation

Distinguished Guests, Ladies and Gentlemen, I am pleased to inform you that the University was able to

admit its first set of students in January 2016. This consisted of 234 students admitted into various courses in the University. This includes 97 admitted into Medicine (54 at 100 Level and 43 at 200 Level); 36 into Dentistry (21 at 100 Level and 15 at 200 Level); 32 at 100 Level Biochemistry; 34 at 100 Level Anatomy; and 35 at 100 Level Physiology.

Students came into residence on January 10, 2016. They completed their orientation program on January 23, 2016 and began lectures on January 25, 2016. Most of the students completed their registration formalities, which formed the basis of the University's successfully conducted first ever Matriculation ceremony in March 2016. The school fees charged by the University is one of the lowest in the Country.

Matriculation signals the formal admission of the students into the University, without which students would still be regarded as ad-hoc rather than full-time students. Therefore, the first matriculation ceremony of the University was an important and crucial event which was celebrated proudly by students, parents and all friends of the University. The students took the Matriculation Oath during the ceremony to indicate their willingness to abide by the rules and regulations of the University.

Inauguration of the University

As the Matriculation was the first major event of the University, during the ceremony, the University was formally inaugurated. Thus, this matriculation combined with inauguration ceremony provided the opportunity to present the University to the general public, for stakeholders to see the University at its foundational level and to offer relevant suggestions and support. From then on, the University has organized major events, including the Distinguished Guest Lecture that brought the ethos of the University to the recognition of the wider segment of the society. During the University inauguration, we were grateful that the Executive Secretary of the NUC himself, Professor Julius Okojie was able to join us to talk to us about the expectations of the NUC and indeed all Nigerians of this University. His words of advice were taken to heart and the results of that are evident in the desire to propel the University to the world stage. Two eminent professors who had been helping the University in its strategic planning were also in attendance. Professor Peter Okebukola, a Vice-Chancellor emeritus and former Executive Secretary of the NUC, is the special adviser plenipotentiary to me as Vice-Chancellor and also assisted the University with the development of its strategic plan. We were also very grateful to Professor O. A. Bamiro, former Vice-Chancellor of the University of Ibadan, a man for whom I have the highest respect

for his integrity, who is our adviser on research development. We thank him for his unwavering and towering support he has continued to give to the University. The two distinguished professors; Professor Okebukola and Professor Bamiro on their own are current and serving Chairmen and Pro-Chancellors of two Nigerian Universities, and are continually being sought out for educational matters in this country. We are indeed, very grateful for their influence on the University.

University Sustainability Plans

Permit me at this juncture to speak on a subject matter that has been agitating the minds of friends and various stakeholders about the University, for which I have received a number of questions. This is the sustainability of the University in view of the dwindling national and state resources. Let me first reiterate the answer I have often given to everyone who has expressed this concern. A good idea is a good idea, it is not the lack of money that is the problem with our country, but the lack of great ideas. When you have great ideas, money will come to drive the implementation of the idea, and of course all progressive people will support the idea. The idea of the University of Medical Sciences is one of the most creative and innovative ideas that have taken place in the development of tertiary education, especially the development of medical education in this country. To that end, I am convinced without any doubt that the University of Medical Sciences has come to stay and will be supported by all Nigerians in perpetuity.

To meet the anticipated challenges in financing, which indeed, ALL Nigerian Universities are facing at the present time, the University of Medical Sciences has established a multi-functional and professional fund-raising office headed by Professor Denis Abimbola Akintade, the Director of Advancement and Documentation. To date, the multi-faceted fund-raising efforts of the University have made tremendous progress, and we are hopeful that this will continue to be a significant aspect of the University's sustainability plan.

Friends of UNIMED Fund

At its Meeting on February 18, 2016, the Governing Council of the University decided to establish a "Friends of UNIMED Fund (FUF)" for the purpose of obtaining the resources to grow the University to attain its mission and vision statements. The objectives of the UNIMED FUF are twofold: 1) to build a multitude of friends for the University who will see themselves as stakeholders, and therefore be willing to make regular

contributions towards the development of the University; and 2) to manage the Funds in a transparent, effective and accountable manner for specific identifiable projects on research, service delivery and development of the University.

The idea is to generate a cohort of friends for the University who will make regular, small and determined financial contributions towards the implementation of specific projects in the University. It is not the size of individual contributions that will matter, but rather the number and consistency of the donors. The goal of the University is to attract one million faithful friends who will make annual donations of at least one thousand naira (N1000) each. This will amount to about One Billion Naira each year, enough to embark on major developmental projects each year for the University. This Fund was launched in July and subsequent fund raising ideas are in the works.

Appreciation of Donors

Let me at this point thank all those who attended both the Ondo and Abuja launches of the FUF, those who visited the University, those who welcomed us into your homes on our several courtesy visits and those who have made various donations including Capital Projects, cash, furniture, electronics, etc. to the University over the past months. We are very grateful to all donors. In addition to external donors, I would like to acknowledge the staff of the University who have donated to the Friends of UNIMED Fund. Your constant sacrifice and financial support to the advancement of the University did not go unnoticed.

Conclusions

On behalf of the Governing Council, Faculty, Staff and Students, I wish to thank you profusely for your interest in the University and for reading this address. We wish to assure you of the deep commitment of all Principal Officers of the University (indeed, my personal commitment) to propel this noble idea of the great people of Ondo State to its highest level of potentiation. To this commitment, we are prayerful that the Almighty Lord will continue to give us wisdom and good health to ensure its full realization to the entire benefit of all Nigerians.

Thank you.

Prof. Friday Okonofua, FAS
Vice Chancellor

Vice Chancellor's Office (Temporary)

ADDRESSING THE OBJECTIVES OF THE UNIVERSITY

The specific objectives for establishing UNIMED are as follows:

- ? To prepare students for leading professional roles in all disciplines in the health sector in Nigeria and globally;
- ? To offer the best tertiary health care (including preventive and curative care) for all forms of diseases, disabilities and deformities that are prevalent in Nigeria specifically, and throughout the African region broadly;
- ? To promote research and creative work for transforming and improving the health of Nigerians and the world at large;
- ? To develop human and physical resources of the University to some of the best attainable standards in the world; and
- ? To promote the health and social well-being of Nigerians through engagement, outreach services and public education.

VICE-CHANCELLOR'S SPECIFIC OBJECTIVES

GOAL: The goal of the foundation Vice-Chancellor of UNIMED is to position the University to support Nigeria's quest for high quality education, service delivery, research and innovation in the health sciences.

SPECIFIC OBJECTIVES: This goal would be attained through the following strategic objectives:

- 1) Build a transparent, effective and accountable governance that will establish the University on sound administrative and academic principles similar to those found in the best University traditions anywhere in the world;
- 2) Develop a multi-stakeholder funding base, and engender the sensible and accountable appropriation and use of the funds for the sustainable development of the University, especially to promote infrastructural and staff development and boost teaching, clinical services and research activities;
- 3) Provide for the systematic infrastructural development of the University using the highest standards and models of architecture and physical planning for campus development;
- 4) Promote the academic growth of the University by ensuring full accreditation of all its academic courses within the shortest possible period of time, and increasing academic and research outputs, with increased ranking of the University, overall; and
- 5) Support community out-reach services such that the University will immediately begin to address the socio-economic development and health problems of its immediate communities and be the lead institutional advisor on the developmental aspirations of the local community.

STRATEGIES FOR ACHIEVING THE OBJECTIVES

The following strategies for achieving the specific objectives were identified in the foundational years of the institution:

- ? Development of the UNIMED Strategic Plan
- ? Effective and accountable governance
- ? Fund-raising for sustainable funding
- ? Transparent budget, financial and audit procedures
- ? Infrastructural development
- ? Cutting-edge academic development
- ? Contributions to community development

DEVELOPMENT OF THE UNIMED STRATEGIC PLAN

The goal of UNIMED is to become a world-class university while delivering excellence and innovation in health education and research for the improvement of health in communities with high burden of diseases and to curb medical tourism. As part of efforts to achieve excellence and drive the vision and mission of the University, the development of a strategic plan was accorded top priority by the Management. To that extent, machineries were set in motion to develop a comprehensive plan with the appointment of a Consultant in the person of Prof. Peter Okebukola to facilitate the process leading to the preparation of the strategic plan document. Three workshops (funded by the Ford Foundation) were held between 2016 with all University administrators, faculty and staff in attendance to draw up the 5-year University strategic plan spanning the period between 2016 and 2020. This approach was employed to provide an opportunity for maximum input by all, provide a framework and a clearly defined direction for the University, increase the level of commitment to the organization and its goals, and buy-in by all to increase compliance.

EFFECTIVE AND ACCOUNTABLE GOVERNANCE

From inception, the University has put in place core principles of corporate governance that include best practices, accountability, transparency, efficiency and effective service delivery, effective use of committee system, institutional checks and balances, principle of trust and consensus, staff motivation and welfare as well as the concept of community services to the society.

ADMINISTRATIVE SETUP

With the appointment of the Vice-Chancellor and the Registrar and inauguration of the Governing Council on Monday, 16th November 2015 by His Excellency and Visitor to the University, Dr. Olusegun Mimiko, CON, other

organs of the University like the Senate, Congregation as well as other statutory committees were put in place for effective administration and governance of the new University.

RETREATS, ADMINISTRATIVE TRAININGS AND WORKSHOPS

As part of efforts to foster excellence in teaching, research and service delivery in all health sciences disciplines, the University decided on the option of doing things differently in ways to correct the present inadequacies that bedevil the tertiary educational system in Nigeria. One of the strategies that the University has identified for achieving its developmental milestones is unrelenting staff training, re-orientation and staff motivation.

In achieving the above, the University convened a unique staff orientation workshop for its pioneer Academic and Non-teaching staff between Monday 1st and Friday 5th February, 2016 in order to build common understanding of the specific methods to be adopted for growing the University to world class status. The workshop brought together some of the best minds in University education.

The one-week training was funded by the Ford Foundation and facilitated by eminent and distinguished academics. The facilitators included:

- ? Professor A. G. Onokerhorhaye, former Vice-Chancellor, University of Benin
- ? Dr. Mike Egboh, Country Representative PATH 2,
- ? Prof. Kole Omotosho
- ? Prof. Peter Okebukola, former Executive Secretary, NUC
- ? Prof. Zachariah Debo Adeyewa, Vice-Chancellor, Redeemer's University, Ede
- ? Mr. Odi Ofeimun, Renowned Writer and Poet
- ? Prof. Adebisi Daramola, Vice-Chancellor, FUTA
- ? Prof. O Bamiro, former Vice-Chancellor, University of Ibadan
- ? Dr. Joshua Attah, Head of ICT, NUC
- ? Prof. Idowu Olayinka, Vice-Chancellor, University of Ibadan
- ? Prof. Nimi Briggs, former Vice-Chancellor, University of Port Harcourt
- ? Prof. Richard Anao, former Vice-Chancellor, University of Benin
- ? Prof. M. O. Faborode, Secretary General, Committee of Vice-Chancellors.

Apart from the retreat/capacity building workshop for staff, the University has also put in place a Short Course/Training Committee to plan and organize short term courses and training programmes in the University. To date, the Committee has successfully organized three (3) training programmes with participants drawn from different tertiary institutions across the country and from the Gambia. These training programmes are titled; Reducing Maternal Mortality in West and Central Africa, Basic Life Support (BLS) Training Programme and Short Course on Grant Proposal Writing and Financial Management in Tertiary Institutions.

STAFF DEVELOPMENT AND TRAINING

As part of the University's policy of improving the capacity of its staff, the Management has continued to support staff to acquire additional qualifications in order to enhance their effectiveness and efficiency on the job. In that regard, approval had been granted to two (2) academic staff to further their studies abroad and one (1) non-teaching staff to pursue Post graduate Diploma Certificate. In addition, the University has continued to encourage and support staff to attend local and international administrative and scientific conferences.

COMMITTEE SYSTEM OF GOVERNANCE

To give credence to and fast track the decision making process, the University Management has adopted the committee system of governance in all spheres of its administration. Apart from the statutory Council and Senate committees, there are also various administrative and ad-hoc committees, which have been constituted to ensure the participation of all stakeholders in the decision-making process. These committees meet periodically or as occasions demand and make recommendations to the University Management on issues referred to them.

STAFF WELFARE

The University has continued to make staff welfare its priority despite the meager resources available to it. Substantial progress has however, been made in the following areas:

- i. Contributory Pension Scheme
- ii. Establishment of a Co-operative Society to assist staff to meet their financial and material need
- iii. Approval of salary advance/Loans
- iv. Training and development through conferences, in-house seminars and higher academic pursuit.

THE UNIVERSITY REGISTRY

The University Registry is headed by a consummate and seasoned university administrator, Dr. (Mrs.) E. F. Oyeade, mni. The Registry provides the needed support to the academic organs for the sustenance of the young University. As at November, 2016, the University has a total number of 145 staff (Academic Staff 48, Senior Administrative and Technical Staff 62 and 37 Junior Staff).

DEVELOPMENT AND IMPLEMENTATION OF GUIDELINES, PROCEDURES AND ADMINISTRATIVE MANUALS

The Registry has taken the initiative of developing appropriate guidelines and procedures to guide the operations of the University. The Standing Orders of Council and Senate had been developed and adopted for use by the two statutory bodies for the conduct of their businesses. Administrative manuals such as the Conditions of Service for Junior and Senior Staff, Scheme of Service for Senior and Junior Staff, Schedule of Duties for Staff, Registry Manual, Students' Handbook of Information, Security and Safety Manual, Financial Regulations Manual, etc. had been developed and approved by the Governing Council for the use of the University.

PERFORMANCE EVALUATION

A practical measurement and evaluation procedure has been put in place to measure the performance of the various departments and units. Such performance evaluation mechanisms include: the periodic review of activities of departments/units to assess the impact and progress made so far, the use of lecturers' evaluation forms and staff appraisal forms.

ICT DEVELOPMENT

The Information and Communication Technology Centre has the mandate to develop and maintain an ICT roadmap for the University to achieve effective internal governance and global excellence. It is saddled with the responsibility of ensuring an IT-driven environment based on modern technology. It is a central service unit that provides IT facilities for teaching, research and consultancy services within the university and to the outside world.

DEVELOPMENT OF 5 -YEAR ICT PLAN

In order to properly guide the unit, a 5-year (i.e. 2016 - 2020) plan with the following goals was drawn:
To create visibility of UNIMED among Nigerian Universities by 2017; ensure that all buildings and facilities in UNIMED are fully connected to the Internet by 2018; provide E-Learning Management System platform for teaching and research by 2018; deploy Enterprise Resource Planning (ERP) solutions for University transactions by 2019; to provide IT competencies for staff, students and host community by 2017; ensure that UNIMED is provided with state of art ICT Centre 2018; ensure provision of communication and security infrastructure 2017; recruit and train 10 personnel in different areas of IT to meet the University IT requirements.

MANAGEMENT OF INTERNET SERVICES

The University currently subscribes to the Nigerian Research and Education Network (NgREN) Infrastructure for internet access provision.

WEBSITE AND PORTAL DEVELOPMENT

In the year under review, the University hosted a University website (www.unimedondo.edu.ng). The website was populated with relevant contents from the various faculties, departments and units of the University.

NETWORKING OF UNITS AND DEPARTMENTS

The administrative building, Bursary department and the Faculty of Basic Medical Sciences was equipped with both wire and wireless Local Area Network.

USER SUPPORT SERVICES

The ICT Unit also offers user support services and training for students and staff.

FUND-RAISING FOR SUSTAINABLE FUNDING

DEVELOPMENT AND IMPLEMENTATION OF FUND-RAISING STRATEGIC PLAN

Universities, globally, have multiple sources of funding. The University of Medical Sciences, Ondo primarily receives funds from the State Government; however, the national economic recession and the dwindling government resources has made it difficult to depend on government funding alone for developing the university. Consequently, it became expedient for the University to develop and implement different fund-raising strategies to facilitate its infrastructural growth and development.

The University's fund-raising objective is to generate funds to finance the University's development projects in a short period of time. The University aims to internally generate at least 25% of UNIMED budgetary needs by the year 2018.

ACTIVITIES TO ATTAIN THE OBJECTIVES

As a result of the need to increase the University's funding sources, the Governing Council at its meeting held on February 18, 2016, decided to establish the Friends of UNIMED FUND (FUF) and Friends of UNIMED Network (FUN) for the purpose of obtaining the resources to grow the University to attain its mission and vision statements within a short period of time. The objectives of the UNIMED FUF are twofold: 1) to build a multitude of friends for the University who will see themselves as joint owners, and therefore be willing to make regular contributions towards the development of the University; and 2) to manage the Fund in a transparent, effective and accountable manner for specific identifiable projects on research, service delivery and development of the University.

The idea is to generate a cohort of friends for the university who will make regular, small and determined financial contributions towards the implementation of specific projects in the University. *It is not the size of individual contributions that will matter, but rather the number and consistency of the contributors.* The goal of the University is to attract one million faithful friends who make annual donations of at least one thousand naira (N1000) each. This will amount to about One Billion Naira each year, enough to embark on major developmental projects each year for the University.

Other major Fund raising strategies of the University include the establishment of UNIMED Consults and organisation of Short Course Programmes

ESTABLISHMENT OF A FUND-RAISING COMMITTEE AND ADVANCEMENT OFFICE

To achieve its fund raising objectives a Fund-Raising Committee was established. Membership of the committee, chaired by a member of the university's Governing Council, High Chief Olusola Adeduro, also includes the Vice-Chancellor and the Registrar. Apart from the committee, which has the primary responsibility of raising funds for the institution, the Advancement and Documentation Unit was also created in March 2016. The unit under the supervision of a director also has a fund raising programme officer.

Both the Fund raising Committee and the A&D unit have continued to supervise the university's drive for generating funds, especially through the FUF.

The unit has also secured new sources of funds for the University; received, acknowledged and tracked all donations and pledges; and assisted in the development, production and dissemination of support materials for fund raising activities

VISITATIONS FROM FRIENDS AND CORPORATE BODIES

LAUNCH OF FRIENDS OF UNIMED FUND

The Friends of UNIMED Fund was launched in Ondo on Thursday July 7, 2016 at the Oba Adesanoye Civic Centre, Ondo. The Launch had in attendance the Executive Governor of Ondo State Dr. Olusegun Mimiko, CON, the Osemawe of Ondo Kingdom, Oba (Dr.) Victor Adesimbo Kiladejo, The Deji of Akure, the Chairman of the Governing Council, Prof. O. O. Akinkugbe and members of the Governing Council. The event also attracted eminent personalities, political office holders, corporate organizations, and individuals, traditional and religious leaders from both within and outside the State. The highly colourful event was well attended by at least four hundred and fifty (450) guests who enlisted as "friends" of the University. As a follow up to the Ondo Launch the FUF was also launched in Abuja on Tuesday October 18, 2016. The Abuja event was similarly colourful and attended by many dignitaries. At both events, friends of the University donated generously to the FUF. The University has a plan to launch the FUF in Lagos, Port-Harcourt and few other major cities of Nigeria.

Apart from cash donations, Items received so far under the FUF scheme include refrigerator, laptops, printer, cabinets, stabilizers, building blocks, wireless network

hardware and waste bins, among others. At the Ondo launch, Chief I. F Akintade, the "Saibi Gogou" of Ondo Kingdom donated The School of Basic Clinical Sciences. The building is already under construction and it is expected to be completed before the end of the year. The building when completed would be tagged "Isaac Akintade Faculty of Basic Clinical Sciences".

The quote 'Small Acts, When Multiplied by Millions of People Can Transform the World' Howard Zinn is the FUF mantra. At the end of October 2016, the FUF network had realised almost 20 million naira in cash and pledges and more people are getting enlisted to the network. (See appendix for details of donors)

FRIENDS OF UNIMED FUND (FUF) LAUNCH, ONDO

TRANSPARENT BUDGET, FINANCIAL AND AUDIT PROCEDURES

BUDGET AND FINANCIAL PROCEDURES

The establishment of a new institution requires significant financial investments and the budgetary, audit and financial procedures of this institution can determine its survival or orchestrate its demise. At UNIMED, the culture of honesty, transparency and consistency set forth by the Vice Chancellor is the basis of the Bursary, Audit and other financial departments. The University is dedicated to utilize all acquired funds judiciously and only for the sole purpose of developing the University while actualizing its vision, mission and goals.

To accomplish the day-to-day accurate and transparent financial management of the University, the duties of the Bursary Department since inception have included the following; received incomes: i.e. school fees and other revenues, subventions (capital and recurrent) from the State Government on behalf of the University, made duly approved payments to creditors and staff of the University, represented the University as a liaison between the management and the appointed University bankers, advised the management on financial matters, monitored closely the University's funds deposited in all its bank accounts, effectively utilised and managed the limited number of personnel in order to achieve maximum results, etc (See Appendix for our first year audited financial report).

INTERNAL/EXTERNAL AUDITING

The auditing of the University's finances is an important part of the goal for accuracy and transparency. The Internal Audit Department have been responsible for the verification of all financial transactions conducted by the University or its designees. To prevent conflict of interest and in an attempt to also verify the internally audited University accounts, machineries were set in motion to develop a comprehensive plan with the appointment of an external audit Consultant to facilitate the process leading to the preparation of the first external audit document of the University (See Appendix for the external Audit Document). The external audit was conducted in accordance with Auditing Standards issued by the Nigerian Accounting Standards Board, International Standards on Auditing of non-profit making organizations and with the Generally Accepted Accounting Principles. It also included an assessment of the estimates and judgments made by the University officers in the preparation of the Financial Statements. The result of the external audit revealed the University kept proper books of accounts and the Financial Statements were in agreement with the books.

INFRASTRUCTURAL DEVELOPMENT IN UNIMED

At the time of establishment of the University, it had no building of its own hence its initial administrative activities were conducted at one of the offices at the Trauma Centre of the Medical Village.

To secure a firm base for the future expansion of the University, the government acquired about 100 hectares of land surrounding the existing medical village. As an interim arrangement however, the proposed Pathology unit of the medical village was ceded to the University to serve as the temporary office of the Vice-Chancellor/administrative block.

From this humble beginning however the University has made significant progress in terms of developing its infrastructures. Some of the notable infrastructural development projects are:

A. ANATOMY BUILDING

The building, constructed through direct labour, houses the Gross Anatomy, Embryology, Histology practical and preparatory laboratories. It also consists of the morgue room, behavioural testing room, laboratory technology offices, and the museum.

B. ANIMAL HOUSE

The Animal House, also constructed through direct labour, serves as a habitat for experimental animals.

C. FACULTY OF BASIC MEDICAL SCIENCES

The Faculty building was constructed by the Ondo State Government for the University. The building currently houses the library, lecture hall, the Physiology and Biochemistry laboratories.

D. FACULTY OF SCIENCE

The building is located at the Adeyemi College of Education (ACE), Ondo. The building, which was loaned to the University by the ACE authorities was rehabilitated, renovated and refurbished by UNIMED. It currently serves as lecture halls, staff offices and laboratories for the Faculty.

E. FACULTY OF BASIC CLINICAL SCIENCES

The building, currently under construction, is donated by Chief Isaac Akintade, the Saibi Gogou of Ondo Kingdom. The building is expected to be completed before the end of the year 2016. When completed, it will house the Departments of Chemical Pathology, Haematology, Etc.

F. THE ODOSIDA CAMPUS

The Campus will serve as the new administrative building of the University. The Office of the Vice-Chancellor is also expected to move to the new site. The Campus is also expected to house the proposed University Health Centre and the Faculty of Allied Health Sciences.

G. THE UNITED NATIONS HABITAT FOR HUMANITY PROJECT

The University submitted proposals and was shortlisted as one of the beneficiaries under the UN Habitat Project. The Project includes the construction of Students' hostels and Staff accommodation facilities.

THE PROPOSED STAFF ACCOMMODATION COVERS THE CONSTRUCTION OF THE FOLLOWING:

- Vice Chancellor's lodge
- 5- Bedroom Duplex for Management Staff Quarters
- 4- Bedroom Twin Duplex for Principal Staff and professorial Quarters (option 1)
- 4- Bedroom Bungalow for Principal Staff and professorial Quarters (option 2)
- 3- Bedroom semi-detached for Senior Staff Quarters
- 2- Bedroom semi-detached for Intermediate Staff Quarters
- 1- Bedroom semi-detached for Junior Staff Quarters

THE PROPOSED STUDENTS' HOSTEL MODELS:

- 336 single bed hostel facility (option 1)
- 224 single bed hostel facility (option 2)

H. POWER SUPPLY

- ? Purchase and installation of a 30KVA generator for Faculty of Science.
- ? Installation of 80KVA generator for the University.
- ? Purchase of three petrol generators for students Hostels at NIEPA

The architectural drawings have been prepared for the Faculty of Dentistry, the Faculty of Clinical Sciences and the Library/bookshop building and funds are currently being sourced for the construction of the proposed buildings.

CUTTING-EDGE ACADEMIC DEVELOPMENT

Impartation of knowledge is the most important objective of any tertiary institution of learning. In-depth knowledge is acquired only when sound academic policies are not only put in place but are duly executed by institutions of learning. The University of Medical Sciences, in furtherance of its mission, promotes academic development through cutting-edge activities. Notable steps taken toward achieving outstanding and distinctive academic development by the University include:

A) DEVELOPMENT OF ACADEMIC BRIEF

At the time of the appointment of the Vice-Chancellor and the Registrar in 2015, not much academic planning had taken place and the National Universities Commission (NUC) had therefore not been approached for formal recognition of the University.

In a bid to set things right from the scratch and to lay a proper and strong foundation upon which its academic activities will be built, the Vice-Chancellor working with Professor Eugene Okpere (a government-appointed Consultant whom he met on ground) and Professor Tolu Odugbemi, FAS, OON, NNOM (former Vice-Chancellor of the Ondo State University of Technology, Okitipupa, (who worked *pro bono*) developed the draft Academic Brief and physical plan of the University.

A draft of the Academic Brief was further revised by a team of experts from various medical disciplines. The team which was constituted by the Vice-Chancellor had to fine-tune the draft to meet the requirements of the NUC. Members of the team include: Professor Sola Ogunniyi (Internal medicine), Professor O Fatusi (Community Medicine), Professor Akin Ojo (Dentistry), Professor Obuekwe (Dentistry), Professor A Omonkhua (Biochemistry), Dr. Eze (Anatomy) and Professor Abhor Ighorodje (Physiology).

B) NUC RECOGNITION, VISITS AND RESOURCE VERIFICATION

Upon conclusion of the exercise, the revised Academic Brief together with the Law establishing the University was presented by the Governor of Ondo State to the NUC and the University was officially recognized by the NUC as the 40th State University and the 139th University in Nigeria on April 22, 2015.

This official recognition was followed up by the University's invitation to the NUC to assess its resources and facilities before enrolment of students into its medical programmes. The NUC in response to the invitation, conducted the first resource verification visit to the University on December 7, 2015 and consequently approved the following programmes to be run by the University:

- 1) Faculty of Clinical Sciences: MBBS
- 2) Faculty of Dentistry: BDS
- 3) Faculty of Basic Medical Sciences: Anatomy, Physiology, Biochemistry

In a bid to ensure expansion whilst not compromising standards, efforts are currently being made to introduce new courses and plans are in the pipeline to obtain the necessary approvals and commence programmes in Physiotherapy, Nursing, Physics (with options in Physics electronics and medical Physics), Chemistry, Mathematics and Biological sciences (with options in Microbiology, Animal and environmental biology, Plant biology and Biotechnology).

On October 11, 2016, the University inaugurated the board of the proposed UNIMED School of Public Health. The School is among other things to develop a strategic plan for the public health programmes of the University and to identify courses and curricula for the Departments.

C) CURRICULUM DEVELOPMENT AND ACADEMIC DEPARTMENTS

The following Departments and Centres currently exist in the University: the Department of Biological sciences, Department of Anatomy, Department of Biochemistry, Department of Physiology, Department of Community Health, Department of Physics and the Centre for General and Entrepreneurship studies.

To ensure that the departmental academic activities are carried out in compliance with existing and acceptable standards, the University set up a Curriculum Development Committee which has the mandate to develop sound and qualitative academic curriculum for the existing Departments in the University.

The Curriculum Development Committee comprising of notable Professors in the respective fields of medical sciences, received valuable contributions from the lecturers in the respective departments and met to consider and update the various contributions as they deemed necessary.

A comprehensive curriculum has thus been drawn up for each Department in the University. The intention is to

regularly review and update the existing curriculum to ensure that it meets up with international standards and trends.

D) UNIVERSITY LIBRARY AND E-LEARNING FACILITIES

The University Library exists to serve the objective of its parent organization, and as such, the University Library must not only circulate knowledge but must also support teaching, research and community service. In furtherance of this, the University in July, appointed a Special Adviser on Library Resources to assist with the acquisition of relevant books and journals.

The University Library is currently housed in a temporary building within the University with a sitting capacity for 150 readers pending the construction of a permanent University Library building. The University currently provides open access to Library resources through the use of Library catalogues and on-line facilities; reprographic services; selective dissemination of information (SDI); and internet services. Plans are in progress to automate the operations of the Library. When completed, it would enhance the Universities operations by introduction of Cataloguing, Serials, Acquisitions, Administration and Special Collection modules.

The University Library currently has over 2000 volumes of books and subscribes to several foreign and local journals. This is in addition to several books and journal accessed through our e-library and academic database.

Librarians in the University Library are also involved in teaching of the GES 112 (Use of Library, Study Skills, and Information and Communication Technology).

E) GUEST LECTURES

As a way of promoting town-and-gown relationship, the University has instituted the guest lecture series. The series is aimed at disseminating information from the academia to the community on varied national and topical issues, especially as they relate to health matters.

THE 1ST DISTINGUISHED GUEST LECTURE

The first distinguished lecture series titled “We Reap What We Sow” was delivered by the Emeritus Professor of Obstetrics and Gynaecology and a former Vice-Chancellor of the University of Port Harcourt, Professor Kelsey A. Harrison MD, DSc. (London), FRCOG, FMCOG held on Wednesday 15th June, 2016.

The maiden Lecture was well attended by heads of tertiary institutions, representatives of clinical and academic community as well as dignitaries from diverse backgrounds.

The University has also fixed its first Founder's Day Lecture for Thursday December 8, 2016. The Lecture will be delivered by the Executive Secretary of the NUC, Prof. Rasheed Abubakar.

F) SHORT-TERM TRAINING PROGRAMMES

1. The University conducted a 2-week Certificate course on: “Maternal mortality prevention in West and Central Africa”. The Course which was hosted by the University was conducted in collaboration with the Centre of Excellence in Reproductive Health Innovation (CERHI), University of Benin and the Mother and Child Hospital, Ondo. The Course took place from 2nd to 12th May, 2016 and was attended by participants from institutions in Nigeria and other African countries.

2. In August 2016, the University organised a workshop on Master Grant Proposal Writing and Financial Management in Tertiary Institutions. Facilitators at the 3-day course included serving and former Vice-Chancellors and administrators with notable experience in the areas of focus. The short course took place from 22nd to 24th August, 2016 at the Lecture Hall of the Faculty of Basic Medical Sciences.

G) UNIMED RESEARCH, PUBLICATIONS AND TRAINING COMMITTEE

In June 2016, the Vice Chancellor constituted the Research, Publications and Training Committee of the University. The Committee had its inaugural meeting on 17th June, 2016.

Since its inception, the Committee has received and considered proposals for the TETFUND Institution-based Research Intervention and the shortlisted proposals are being finalised for submission to the TETFUND office in Abuja.

The Committee serves as a collation unit for all research publications of the University. The Committee also actively disseminates information on research opportunities, conferences, fellowship and grants available to staff.

H) UNIMED WEEKLY RESEARCH SEMINARS

In October 2016, the Vice Chancellor introduced the compulsory Weekly Research Seminars for all academic staff of the University. The research seminars creates a platform for members of the University Community to present their ongoing or proposed research proposals to their colleagues for comments, queries and other perspectives which will further assist the researchers to conduct a more qualitative and academically sound research exercise.

The first Research seminar was held on 27th October, 2016 and series of seminars have

I) STUDENT SATISFACTORY SURVEY

In a bid to ensure that the relevant needs of the students are given utmost priority in the infrastructural development of the University, a students' survey was conducted at the end of the first semester, 2015/2016 academic session. The questionnaire-based survey was conducted to ascertain the students' perception and views on the facilities in place at the University.

At the end of the survey, the students were adjudged to be largely satisfied with the academic and infrastructural facilities available.

J) LECTURERS' EVALUATION SURVEY

The University Senate at its 11th Statutory Meeting constituted a Committee for the evaluation of all lecturers in the employment of the University. The parameters on which the Lecturers were to be evaluated include, the lecturers' punctuality, teaching abilities, relationship with students, and accessibility to students, among others.

At the end of the 2015/2016 academic session, the Committee in furtherance of its mandate distributed the questionnaires which were filled anonymously by the students and the data obtained from the forms is currently being analysed by the Academic Planning Division.

K) AWARDS AND RECOGNITION

AWARDEE	AWARD/ RECOGNITION	DATE
Prof. Friday Okonofua FAS	University of Benin Honours Award	November 2016
Dr. (Mrs) Eunice F. Oyebade, mni	Prestigious FUTA Registry Award of Excellence	August 2016
Engr. Olatunde Johnson Adegbola	Merit award of the Nigerian Society of Engineers	August 2016
Dr. (Mrs) Yemisi Jeff-Agboola	2015 Top Influencer Award from African Women in Agricultural Research and Development from West Africa Region	2015
Dr. (Mrs) Yemisi Jeff-Agboola	2015 Queen's Award for Agricultural Promotion by the Office of the Queen of Aso, Nigeria	2015
Dr. K. A. Itire	Best Presenter Award, national Annual Society for Experimental and clinical Anatomy, Delta State	April 2016
Mr. A. R. Akinyemi	Best Presenter Award, International Students Congress of BioMedical Sciences, University Medical center, groningen, Netherlands	June 2016
Prof. Abimbola Akintade	Vice Chancellors Personal Award for Highest Fund Raiser Towards the Friends of UNIMED Fund	July 2016
Dr. (Mrs) Yemisi Jeff-Agboola	2016 Ondo State Female Role Model Award	July 2016
Mr. O. S. Ogunmodede	Ebola Group Award, 13 th HKU-Pasteur Virology Course: Bats and viruses, University of Hong Kong, Hong Kong	July 2016
Mr. Edebiri Ogbemudia	Award Of Honour Presented By Student Physiological Association Of Nigeria (Span)	September 2016
Mr. Edebiri Ogbemudia	American Physiological Society Ambassador	October 2016

L) CONFERENCE AND WORKSHOPS

PARTICIPANT	CONFERENCE/ WORKSHOP	DATE
Mr. Adeyinka Adekalu Mr. J.O. Awe Mr. M.S.O Shittu	Workshop of Organizational Effectiveness for Senior Management Staff in 19 Selected Organizations, Bill & Melinda Gates foundation	April 2016
Dr. (Mrs) Yemisi Jeff -Agboola Arc. E.A. Taiwo Mr. Adeyinka Adekalu	Tripartite Working Session of the Provision of Affordable Student Housing, Nairobi, Kenya	April 2016
Professor A.M. Arogunjo Mr. Adeyinka Adekalu	Workshop on Academic ceremonies in Nigerian Universities Organized as part of activities of the 31 st Annual Conference of the Association of Vice -Chancellors of Nigerian Universities (AVNU).	May 2016
Dr Anyakudo	Conference organized by Nigeria Diabetes Association	January 2016
Dr. (Mrs) Roseangela I. Nwuba	University of Medical Sciences Ondo, Orientation Training Workshop for Academic and Non-Teaching Staff organized by the Vice Chancellor, UNIMED	February 2016
Dr. (Mrs) Yemisi Jeff -Agboola	2016 Third Conference of the Global Cassava Partnership for the 21 st Century and the 17 th Symposium of the International Society for Tropical Root Crops, Nanning, Guangxi, China,	January 2016
Dr. Anyakudo, Dr Agbaraolorunpo and Mr Adeyomoye	Conference organized by the Physiological Society of Nigeria	September 2015
Dr. (Mrs) Yemisi Jeff -Agboola	Plenary Guest Speaker at the 2016 Autumn Food Security and Safety (FSAS) Conference, at Resolution Circle, University of Johannesburg, South Africa	May 2016

N) ONGOING RESEARCH

NAME	RESEARCH
Dr. Roseangela Nwuba (Department of Biological Sciences)	<ol style="list-style-type: none"> 1. Characterization of naturally acquire malaria antibody against malaria vaccine candidate antigens, for possible inclusion in the development of an effective vaccine. 2. Effect of Stress on the severity of malaria outcome in laboratory rats. 3. The use of TNF alpha polymorphism as a possible diagnostic marker for breast cancer in Nigerian women. 4. Production and testing of monoclonal antibodies with specificities against Erythrocytic Stage Antigens as a potential anti-malaria intervention/control strategy.
Dr. Yemisi Jeff-Agboola (Department of Biological Sciences)	<ol style="list-style-type: none"> 1. Development of biological control formulation from natural resources against mycotoxin in food and feed 2. In-vitro and in vivo efficacy of some Nigerian Medicinal plants against pathogenic fungi 3. Fermentation of cassava peels to improve quality of byproduct as a feed ingredient that can be incorporated successfully into commercial livestock feeds (poultry) to more efficiently utilize the waste in feeding programs, and simultaneously clean up the environment.
Dr. A. M. Tiamiyu	<ol style="list-style-type: none"> 1. Immunostimulant Effects of <i>Allium sativum</i>, <i>Chromolaena odorata</i> and <i>Talinum triangulare</i> on African Catfish (<i>Clarias gariepinus</i>) Burchell 1822 (PhD Research project) 2. Microbiological Quality of Prawns sold at different locations in Ijebu- Ode and her environs, Southwest, Nigeria. 3. Characterization of Chemical and Microbiological Constituents of Domestic Water Use in Ondo City Metropolis, Southwest, Nigeria.
Dr. J.O Ashaolu (Anatomy Department)	<ol style="list-style-type: none"> 1. Studies on Evolving Human Mandible using samples from World Population 2. Predictive value of the human anatomy of modern Africans in the evolution of bipedalism: the study of ethnically diverse knee samples 3. Neurobehavioral studies on simulated microgravity induced rats 4. Biological Adaptation of Ducks in Stress 5. Occurrence and molecular basis of benign prostatic hyperplasia (BPH) development in animal model. CO-PI: A.R. Akinyemi
Dr. A. K Iteire (Anatomy Department)	<ol style="list-style-type: none"> 1. Knowledge and Awareness of Infertility among Students in Delta State University, Abraka.
O.K Ijomone (Anatomy Department)	<ol style="list-style-type: none"> 1. Manganese-induced DAergic toxicity is reduced in <i>trt-1</i> mutation of <i>Caenorhabditiselegans</i>. 2. Synapthopathies: synaptic dysfunctions with clinical implications. 3. Intraperitoneal administration of nickel induces brain damage; behavioural, biochemical, and histomorphological assessment 4. Evaluation of manganese induced atypical parkinsonism; protective actions of quercetin. 5. Effects of acute intraperitoneally administered dextromethorphan on brain and liver of rats.
O.S Ogunmodede (Anatomy Department)	<ol style="list-style-type: none"> 1. Molecular modelling and experimental assessment of the drosophila JAK kinase hopscotch. 2. ExplorativeassessmentofEbolavirusreservoirsinBatpopulationswithinOsun and Ondo States in Nigeria. 3. Tackling selective expression of var gene. 4. Altered specificity of a mutated androgen receptor in prostate cancer is associated with a change in the surface potential of the DNA-binding domain.
B. Ogunlade (Anatomy Department)	<ol style="list-style-type: none"> 1. The effects of sulphoraphane in the regeneration of annular puncture intervertebral disc degeneration in rabbits: effective remedy to low back pain.

CONTRIBUTIONS TO COMMUNITY DEVELOPMENT

COMMUNITY LIAISON COMMITTEE AND WORK WITH THE ONDO DEVELOPMENT COMMITTEE

In order for any institution to record success, it is aligned with multiple stakeholders. The University of Medical Sciences has many stakeholders including the community in which it is situated. To manage the operations of the University while taking into account the opportunity for partnership with the community, the Community Liaison Committee was created. This committee's mandate includes aligning the resources available from the University with the needs of the community. The Ondo Development Committee (ODC) represents the interests of the community and has a very strong working relationship with the University. The University Registrar is a member of ODC and several members of ODC have visited the University. In addition, during the University's fund raising visits, Principal Officers and key staff members visited some ODC members who also happen to be prominent members of the community including Otunba Fadayomi (Chairman, ODC), High Chief Adeduro (Member, ODC) and Chief I. F. Akintade (Member, ODC). The University patronized the ODC in its recent magazine publication and utilizes the Oba Adesanoye Civic Center (owned by the ODC) for events outside the Trauma Village.

PLAN TO DEVELOP A HERBAL MEDICINAL FARM

In order to achieve the University's goals as a world class institution, UNIMED is invested in several out-of-the-box cutting edge innovations. According to the 5-year Strategic Plan for the University, the Department of Biological Sciences plans to be one of the top five sought after Departments in the Country offering innovative courses in Bio-Science that will take into consideration technological advances in orthodox and herbal medicine.

TOWN-GOWN INTERACTIONS

University of Medical Sciences, Ondo is fast becoming a pillar in the community and is now a household name. Several prominent citizens of this City have been to the University to visit and demonstrate interest in supporting one way or the other. Some of the individuals who visited include Hon. Remi Okunriboye, King Sunny Ade, Engr. Kola Olasehinde, etc. The University has also entrenched itself into the culture of the City as it had a presence during the Ogun Festival and plans on obtaining a display booth at the Ekimogun day celebration this year. Key administrative staff have also paid personal visits to monarchs in Ondo including the Osemawe of Ondo Kingdom, the Deji of Akure, the Olugbo of Ugbo Land, the Olukare of Ikare, the Olowo of Owo, etc.

SECURITY AND GOOD RELATIONS COMMITTEE

The security of the administrators, faculty and staff of the University is of paramount importance hence the solicitation of a professional security outfit. In addition to the excellent training and responsibilities of the security officers at UNIMED, the Security and Good Relations Committee was created. The committee is responsible for interfacing with all security organizations within the state including the Nigerian Police Force, Federal Road Safety Commission, the Secret Service, etc. During University based events within and outside the premises, the aforementioned units are consulted to usher, direct traffic and keep the staff, students and guests safe. A majority of the University security officers are also indigenes of Ondo State.

UNIVERSITY OF MEDICAL SCIENCES

Motto: For Learning and Community Service

2015/2016 STATISTICS

Founded: April 22, 2015
Proprietor: Ondo State Government
Language of Instruction: English
Academic Year: October-September

Vision Statement

The vision of UNIMED is to be a thriving medical and health sciences University, locally, nationally and internationally recognized for excellence and innovation in health education and research, with ability to translate research findings for the improvement of health.

Mission Statement

The Mission of the University of Medical Sciences (UNIMED) is to provide integrated education and research of exceptional quality in all health-related sciences; to expand access to compassionate, comprehensive and high-quality health care for under-served populations and to lead the scientific pathway for reducing the burden of disease in our society.

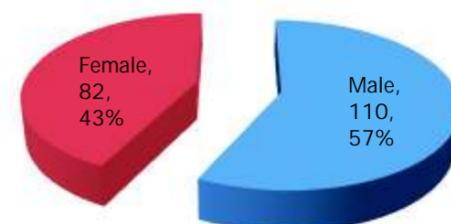

PRINCIPAL OFFICERS OF THE UNIVERSITY

Visitor	Dr. Olusegun Mimiko, CON
Pro-Chancellor and Chairman of Council	Emeritus Prof. Oladipo O. Akinkugbe, CFR
Vice-Chancellor	Professor Okonofua Friday Ebhodaghe, FAS
Registrar	Dr (Mrs) Oyebade Eunice Funke, mni
Ag. Bursar	Mr Fabusuyi Abraham Oladiran, FCA
University Librarian/Special Adviser on Library resources	Mr Akinfolarin William Abiodun, CLN

UNIVERSITY OF MEDICAL SCIENCES Ondo City, Ondo State

REPORT ON FRIENDS OF UNIMED FUND (FUF)

The main objective behind this is to raise fund and thus complement the normal subvention receivable by the University from the State Government. In effect, it is another source of Internally Generated Revenue (IGR) to the university.

The original intention is to raise one billion naira from one million friends of the University both within Nigeria and in diaspora with at least N1000 per donor.

The above fund i.e. FUF was formally launched on 7th July, 2016 at Oba Adesanoye Civic Centre Ondo City, Ondo, although the conception of the idea began in March, 2016. The event was a huge success and was attended by important dignitaries such as His Excellency, the Ondo State Governor, Dr Olusegun Mimiko, UNIMED Governing Council, Royal majesties including Osemawe of Ondo City, Oba Victor Kiladejo, High Chiefs and lots more.

To date the total sum of N12,711,328.64 had been generated and deposited in the two bank accounts dedicated for the purpose.

For further details, below is the list of banks where the money is domiciled:

BANK	ACCOUNT NUMBER	AMOUNT(N)
Zenith Bank, Yaba, Ondo	1014662945	5,732,117.50
First Bank, Yaba, Ondo	2030056765	<u>6,979,211.14</u>
TOTAL		<u>12,711,328.64</u>

However, the project is still ongoing.
Thank you

FABUSUYI ABRAHAMO.

REPORT OF THE AUDITORS ON THE FINANCIAL STATEMENTS OF UNIVERSITY OF MEDICAL SCIENCES, ONDO FOR THE SIX MONTHS PERIOD ENDED DECEMBER 31, 2015

We have examined the Financial Statements set out on pages 6 to 8 which have been prepared under the historical cost convention and on the basis of the accounting policies set out on page 5.

Respective Responsibilities of Management and Auditors

The management is responsible for the preparation of the Financial Statements which give a true and fair view of the state of affairs of the University at the end of each financial year and of its surplus or deficit for that year and comply with the requirements of University of Medical Sciences Statute. It is our responsibility as the auditors to form an independent opinion based on our audit on those statements and report our opinion to you.

Basis of Opinion

We conducted our audit in accordance with Auditing Standards issued by the Nigerian Accounting Standards Board, International Standards on Auditing of non-profit making organizations and with the Generally Accepted Accounting Principles. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the Financial Statements. It also includes an assessment of the estimates and judgments made by the University officers in the preparation of the Financial Statements, and of whether the accounting policies are appropriate to the University's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the Financial Statements are free from misstatement, whether caused by fraud, other irregularity or error. In forming our opinion, we also evaluated the overall adequacy of the presentation of the University's Financial Statements.

Opinion

In our opinion, the University has kept proper books of accounts and the Financial Statements which are in agreement with the books, give a true and fair view of the state of affairs of the University as at December 31, 2015 and its surplus of income over expenditure and of the cash flow for the year then ended and comply with the requirements of University of Medical Sciences Statute.

FINANCIAL STATEMENTS FOR THE SIX MONTHS
PERIOD ENDED DECEMBER 31, 2015

UNIVERSITY OF MEDICAL SCIENCES

Ondo City, Ondo State

ACCOUNTING POLICIES

The following is a summary of the significant Accounting Policies adopted by the University in the preparation of the Financial Statements.

i. BASIS OF ACCOUNTING

The Financial Statements of the University have been prepared under the historical cost convention.

ii. FIXED ASSETS

Fixed Assets are stated at cost less accumulated depreciation.

iii. DEPRECIATION

Depreciation of Fixed Assets is calculated on the straight-line basis at the following rates to write off their cost over their estimated useful lives.

Land and Buildings	2%
Motor Vehicles	25%
Furniture and Fittings	15%
Plant and Office Equipment	15%
Science Laboratory and Other Equipment	20%
Library Books	5%
Computer and ICT Facilities	12½%

However, no provision has been made for depreciation in these accounts because most of the concerned assets were put into use for a period less than three (3) months during the reported period.

iv. STOCKS

Stocks are stated at Cost or Net Realizable Value.

v. COMPARATIVE FIGURES

The Financial Statements are the first set of statements to be prepared by the University; hence, there are no comparative figures.

INVITATION TO LAUNCHING OF FRIENDS OF UNIMED FUND AND NETWORK IN ABUJA

DATE: October 18, 2016
VENUE: Sheraton Hotel, ABUJA
TIME: 11am.

Chief (Dr.) Isaac Folorunso

Akintade

FAMILY BACKGROUND

Chief (Dr.) Isaac Folorunso Akintade was born in Ondo City, Ondo State on August 15, 1942 into two prominent families in Ondo Kingdom. His father, late Pa Akintade Fawehinmi, was a direct descendant of the famous and dreaded Lisa Alujannu while his mother, Princess Aderosotu was a daughter of the late Oba Jisomosun Adekolurejo of Ondo Kingdom.

EDUCATION

Chief (Dr.) Akintade started his elementary education at St. Andrew's Primary School Ondo in 1950 and obtained his Elementary School Leaving Certificate in 1957. He later proceeded to the local Authority Modern School in 1959 and graduated in 1961. In his quest for more knowledge, he again attended the Federal Government Teacher's Training College Ilesha, Osun State where he had his Grade II Teachers Certificate before travelling to the United States of America (USA) for further studies.

While in USA, he attended Armstrong High School Washington DC, and went to the Federal City College, now university of the District of Columbia where he bagged his Bachelor's Degree in Economics in 1972. He was later given an American Scholarship to study at the Western Illinois University, Macomb, Illinois, where he obtained his Masters Degree in Quantitative and Analytical Economics with Honors in the year 1974 and had AIB Final Certificate from the American Institute of Banking, Washington D.C in 1976.

WORK EXPERIENCE

Chief (Dr.) Akintade returned to Nigeria in 1976 and started working at the Research Department of the Central Bank of Nigeria (CBN). While at the CBN, Chief (Dr.) Akintade was saddled with the responsibility of collating and analyzing data from all the banks in the Federation so as to determine the money in circulation and any other information to determine the condition of the Nigerian economy.

Chief (Dr.) Akintade moved to the Federal Ministry of Trade in 1978 to acquire experience in the running of businesses in order to fulfill his lifelong desire of running his own business. While at the Federal Ministry of Commerce, Chief Akintade was in charge of Import License for the whole Federation. He was also the Chairman of the Import Quota Allocation Committee. He finally retired from Government Service in 1983.

All his life, Chief (Dr.) Akintade has always struggled to help his people and uplift their welfare. Indeed, his life has been a life of service to his people, especially the down trodden. So

immediately after his stint at the Central Bank and the Federal Ministry of Commerce, he joined Famak Nigeria Ltd, a company he co-founded, as an Executive Director. He is currently the Managing Director and Chief Executive of the company. As a result of his high interest in banking and his desire to assist some of his people who could not get credit facilities from the conventional banks, Chief (Dr.) Akintade also co-founded the Ekimogun Microfinance Bank where he is the current Chairman of the Bank.

One of the most enduring contributions of Chief (Dr.) Akintade to the economic well being of his people, especially those in the transport sector, is the establishment of the Famak Line. Chief (Dr.) Akintade is the current Patron of the Ondo State Branch of the National Union of Road Transport Workers (NURTW). He has helped so many drivers in Ondo State own vehicles by way of giving them buses at highly subsidized rates. In addition to the above, Chief (Dr.) Akintade has also distributed so many mini taxi cabs to the indigenes of Ondo City to ease the township transportation.

As a result of his prowess in the transport sector, Chief (Dr.) Akintade was made the Chairman of the National Association of Road Transport Owners (NARTO) Ondo State and later the Chairman of the body in the entire Western Zone in Nigeria. He later became the Deputy National President of NARTO in Nigeria as well as the President NARTO Cooperative Society in Lagos State before bowing out of the organization.

CHIEF (DR.) ISAAC AKINTADE AS A POLITICIAN

Having seen great potential in Chief (Dr.) Akintade, the late Oba F. I. Adesanoye, the paramount Ruler of Ondo Kingdom then, invited Chief (Dr.) Akintade to join politics so as to assist Ondo Kingdom achieve its maximum potential in politics. He later invited the current Governor of Ondo State, His Excellency, Dr. Olusegun Mimiko and I into his bedroom where he placed the hands of the Governor into my hands and blessed us saying that the politics of Ondo State was in our hands.

Chief (Dr.) Akintade became the Leader of Labour Party in Ondo Kingdom and Chairman of Elders' Council of the Party in Ondo State. Chief (Dr.) Akintade is proud to have led Labour Party that broke the jinx and resulted in the installation of the first Ondo Kingdom born Executive Governor of Ondo State in the person of Dr. Olusegun Mimiko.

Chief (Dr.) Akintade served on the Board of Owena Oil and Gas until December 2006 when he resigned to join the Labour Party. Chief (Dr.) Akintade served as a Director of Odua Investment Company until December 2013 and he is the current Chairman of Odua Investment Co. Ltd.

AWARDS

Chief (Dr.) Akintade is an entrepreneur per excellence. He has contributed immensely to the development of Ondo State in particular and Nigeria in general.

In recognition of his achievements in business, he has been bestowed with so many awards; some of which are the following:

- Men of Achievement Award by Corporate Press Services Inc. in 1966.
- ECOWAS Men of Integrity Award by the Intra West Africa Communication in 1998.
- Honorary Doctorate Degree in Business Administration by Stanton University, Florida USA.
- Successful Entrepreneurship Award by the Rotary Club of Ondo in 2008.
- Ondo State Businessman of the year Award by the Ondo State Chapter of the NUJ in 1996.

- Merit Award as the Most Humanitarian Person in 2003 by the Federation of Ekimogun Students Union of Federal Polytechnics, Offa Kwara State Chapter.
- Merit Award for Immense Contributions to the Progress of Nigerian Students by National Association of Nigerian Students (NANS) in 2003.
- Man of the Year 1999 by UNIFEC, Obafemi Awolowo University, Ile-Ife, Osun State.
- Award of Erudite Politician of the year 2009 by Ile-Alayo-Bration of Ondo State Radiovision Corporation (OSRC).

CLUBS AND ASSOCIATION MEMBERSHIP

All work and no play makes Jack a dull boy, says an old adage. Chief (Dr.) Akintade refuses to take an exemption from this adage by combining his busy work life with so many social and relaxation activities. He belongs to many social clubs and association. He is:

- The President of Prestige Circle Club, Ondo.
- A Member "C" Circle Club of Ondo
- The Patron of Ifedayo Unity Club, Ondo
- The Patron of Unique Sisters club, Ondo
- The Patron of Owo Ladies Club, Ondo
- The Patron Women of Substance Akure, Ondo State
- The President of Cream Club of Chiefs, Ondo
- Grand Patron of Junior Chamber International (JCI), Adeyemi College of Education, Ondo Chapter.

PHILANTHROPIC ACTIVITIES

In his bid to uplift the wellbeing of so many students in Ondo Kingdom in particular and Nigeria in general, Chief (Dr.) Akintade has awarded without publicity, scholarships to so many indigent students and has assisted in one way or the other, many students travelling overseas for further studies. It is, perhaps, in recognition of this fact that many student bodies have bestowed on him several awards as stated above.

CHIEF (DR.) AKINTADE IN TRADITIONAL INSTITUTION

Chief (Dr.) Akintade has bagged many traditional chieftaincy titles in recognition of the enormous roles he has played in the society including the following:

- Saibi Gogou of Ondo Kingdom
- High Chief Aare of Atunluse of Ifetedo, Osun State.
- Bashorun of Iju, Ondo State
- Bobajiro of Kurugbene, Igbokoda, Ondo State

CHIEF (DR.) AKINTADE AS A DEVOUT CHRISTIAN

Chief (Dr.) Folorunso Akintade is a devout Christian. He is a member of Young Men Christian Association (YMCA) of St. Stephen's Cathedral, Ondo and also a Jerusalem Pilgrim (JP). Chief (Dr.) Akintade is happily married with God living and highly successful children and grandchildren.
