As the Physiological Society London, Society Representative for the University of Lagos, I organized the 1st Departmental PhySoc (UK) Seminar Series. This seminar series is aimed at inviting learned experts annually in the field of Physiology to deliver lectures in the Department of Physiology, College of Medicine, University of Lagos on topical issues.

I also organized the 1st Departmental PhySoc (UK) Quiz. This quiz series is aimed at broadening the knowledge base of undergraduate students in the College of Medicine in Physiology as a course. I am hoping the quiz will become the 1st National quiz competition on Physiology in Nigeria.
