Personal Details

Date of Birth:	April 3, 1978
Marital Status:	Married
Next of Kin	Mrs. Elizabeth A. Okunlola
Details of Contact Address of Next of Kin	Moniya, Ibadan (+23480508885)
State of Origin:	Oyo State
Senatorial District	Oyo South
Local Government Area:	Ibarapa East
Nationality	Nigerian
Date of assumption of Duty	March 1, 2016
Rank of First Appointment	Senior Academic Planning Officer
Present Status	Lecturer II
Date of Last Promotion	October 1, 2019
Present Salary, Grade Level and Step	CONUASS 3 STEP 7
Date of Confirmation of Appointment	October 1, 2019
Faculty/Directorate	Science
Current Department/Unit	Mathematical and Computer Sciences
Associate Department/Unit	Epidemiology and Biostatistics

Educational Background with Dates

- 2010-2013:   University of Ibadan, Ibadan
                Master of Science (Statistics)
- 2007 - 2010: University of Ibadan, Ibadan
                Bachelor of Science (Statistics)
- 2003 - 2005: The Polytechnic, Ibadan, Ibadan
                National Diploma (Statistics)
- 2003 -2004:   Posit College, Ojoo, Ibadan, Oyo State
                Senior Secondary School Certificate
- 1988 - 1993**:** Methodist Primary School, Eruwa , Oyo State
                Primary School Leaving Certificate

Award

Best-overall (ND), The Polytechnic Ibadan, Ibadan, (2005)

Honorary award, Federal School of Statistics, Ajibode, Ibadan (2015)

Fellow, Certified Business Management Professional, Unicaribbean Business School (2015)

Work Experience with Dates

I. **Previous Work Experience Outside the University System with Dates**
- **2012 –2016: Chief Analyst (Data Processing)**
    Analysts' Data Services and Resources Limited, Samonda, Ibadan
- **2006- 2008: Sales and Finance Manager**
    Ejire Pure Water Factory, Amuloko, Ibadan

II. **Previous Work Experience in Other Universities**
- **2010-2012:   Research Assistant to the Head of Department,**
    Department Of Statistics, University Of Ibadan, Ibadan
- **2010-2012:   Assistant Lecturer,**
    Distance Learning Centre
    Department Of Statistics, University Of Ibadan, Ibadan
- **2004-2006:   Industrial Attaché**
    Academic Planning Division, University of Ibadan, Nigeria

III. **Current and Previous Work Experience within University of Medical Sciences**
- 2020-Present: Lecturer II, Department of Mathematical and Computer Sciences.
- 2017-2020: Associate Lecture, Department of Mathematics
- 2019-2020: Principal Academic Planning Officer
- 2016-2019: Senior Academic Planning Officer

Membership of Professional Bodies

Member, International Association of Statistical Education
Member, Leadership Alliance Connect
Member, Black Doctoral Network Inc.
Member, Black in Artificial Intelligrnce
Member, Nigerian Statistical Association (NSA)
Member, Professional Statistical Society of Nigeria (PSSN)
Professional Member, Institute of Informational Management, African
Fellow, Royal Statistical Society, USA

Publication

A. **Thesis**
- MSc.: Estimating Bias of Omitting Spatial Effect in Spatial Autoregressive (SAR) Model
- BSc. : Test of Stationarity on some Climatic Variables

B. **Published Journal Articles**

I. Oluyemi Adewole Okunlola and Folorunso Serifat: "Modelling Rainfall Series in the Geopolitical Zones of Nigeria", Journal of Environmental and Earth Science, Vol. 5, No 2, 2015, http://www.iiste.org/Journals/index.php/JEES/article/view/19466

Edited and Referred Conference Proceedings

I. **Okunlola Oluyemi (2014):** Time Series Modelling of Rainfall in the Geo-Political Zones of Nigeria: *2nd Annual Conference of Environmental Health Sciences (2014), University of Ibadan Conference Centre*

II. **Okunlola et al**. (2022): Benchmark Regulation and Delivery Of Statistics Education at the University Level in Nigeria, 11th International Conference on Teaching Statistics, Rosario, Argentina

III. **Oluyemi Adewole Okunlola** & Olusanya Elisa Olubusoye (2023): Supervised Machine Learning Binary Classification Algorithms and Performance Evaluation in the Prediction of Full Childhood Immunization, 5th International Conference on Scientific Research, Faculty of Science, University of Ibadan, Nigeria

C. Articles Accepted for Publication

Vaccination compliance of selected childhood immunization programmes and the socio-determinant factors in Nigeria, Journal of Infection in Developing Countries

D. Manuscript Submitted for Publication

i. Livestock cattle as a predictor of schistosomiasis transmission in Nigeria

ii. Vegetation index and livestock practices as predictors of malaria transmission in Nigeria

iii. Soil-transmitted helminths endemicity and performance of preventive chemotherapy intervention programme in Nigeria.

iv. Okunlola Oluyemi and Yacouba Kassouri : Empirical investigation of the nexus of agricultural productivity and nutrition in Africa: spatial clusters and spillover effects, 2022, John Wiley and Sons Online Library

E. <u>Paper and Work in Progress</u>

- Spatial Analysis and Time Trend Regression of Violence Death Counts in Nigeria
- Efficient predictive model for coronavirus disease using Tuned Kernelised Support Vector Regression
- Geospatial Machine learning characterization of under-five nutritional status
- Spatial Distribution of Children's Health Status and Association with some Socio-Economic factors in Sub-Saharan African Countries
- GIS mapping and Spatial Analysis of Ebola Diseases in Endemic Area of Ondo State.
- Trade Liberation and Environmental Degradation in African Countries
- Spatial Panel Analysis of Pollutant Emission, Energy Consumption and Economic Growth in West African Countries

F. <u>Professional Accomplishment</u>

- Incorporation of spatial effects into ordinary least squares regression
- Pattern detection, risk factors, and geospatial mapping of some infectious diseases and epidemiological and socioeconomic variables

G. <u>Conferences, Seminars and Workshops Attended with Dates</u>

- ✓ Youth Empowerment Summit (YES), Abuja, 2009
- ✓ 35th Annual Conference of Nigerian Statistical Association held at Akure, Ondo State.
- ✓ 2nd Annual Conference of Environmental Health Sciences (2014) held at University of Ibadan Conference Centre.
- ✓ International Union of Scientific Study of Population 2017 workshop on Geospatial Demography: Combining Satellite, Survey, Census and Cellphone Data to Provide Small-area Estimates held at *Graduate School of Business, University of Cape Town, South Africa.*
- ✓ Big Data and Official Statistics in Africa (Virtual), June 2022
- ✓ 11th International Conference on Teaching Statistics with theme "Bridging the Gap: Empowering and Educating Today's Learners in Statistics" ,11 – 16 September 2022, Rosario, Argentina
- ✓ 5th International Conference on Scientific Research in Nigeria with the theme "Strengthening Scientific Research For National Development, 2-5 May 2023 held at Faculty of Science, University of Ibadan, Nigeria
- ✓ IndabaX2023 Workshop: Human-Centric AI for Digital Nigeria, 9-10 June 2023 held at Thomas Adewumi, University, Kwara State.

H. <u>Current Research Activities</u>

- Theory and application of robust regularization techniques for high dimensional data

- Application of geospatial and nonspatial artificial intelligence in explaining disease outcome

I. <u>Current Relevant Information</u>

<u>Other Activities Within The University</u>
- Course coordination of MAT 111 and 121
- SIWES coordinator
- Examination examiner

<u>Courses Taught within the Current Academic Session</u>

- ✓ Elementary Mathematics I
- ✓ Elementary Mathematics II
- ✓ Basic Statistics
- ✓ Statistical Inference
- ✓ Biostatistics
- ✓ Statistical Methods in Health Information Management I
- ✓ Statistical Methods in Health Information Management II
- ✓ Demography and Social Statistics

J. <u>Contributions to knowledge</u>

Advancement in technology has made available data with georeference information which are essenetial in drafting policies and epidemiological interventions. Signficant numbers of available articles interested in the 'cause and effect' relationship have been executed without considering the locational aspect of the data configuration in their specifications. The contribution to the knowledge in my research area was the incorporation of spatial component to statistical model specification and the possibilities of detecting hotspots of any economic and epidemiological variables which are essential for planning and execution of result oriented interventions. This aspect of research has been extended to hierarchical data structure where Bayesian approach and Integrated Laplace Approximation are used to simultaneously model both the place and space effects of data configuration as well an ongoing research to integrate geospatial information to machine learning which will permit opportunity to apply artificial intelligence techniques in predicting epidemiological outcome variables.
