

# OSHATI OLUWASEUN BENJAMIN

4, Opposite Down Town Hotel, Along Maxima Shopping Complex Road, Amusigbo Street, Idoani, Ose LGA, Ondo State, Nigeria.  
08139660840 / benoluwaseun.prof@gmail.com

**SUMMARY** Passionate, dynamic and innovative software developer with four years of experience in designing and developing web and mobile applications. Proficient in HTML, MySQL, PHP, Python, java programming languages, Bootstrap framework, Android studio tools for frontend and backend programs development. Excellent problem-solving and analytical skills. A team player who works collaboratively with cross-functional teams to deliver high-quality solutions.

---

## TECHNICAL SKILLS

- Programming Languages: Python, java, HTML, PHP, SQL
- Web Development: Bootstrap framework (HTML, CSS, JavaScript), Visual studio.
- Mobile Development: Android studio, java
- Database Management: MySQL, phpMyAdmin, Ms. Access
- Operating System: Microsoft Windows
- Other tools and Technologies: Microsoft office package

---

## PROFESSIONAL EXPERIENCE

**IT Support, Advanced Placement (AP) Computer Science Tutor, CISCO IT Essentials Instructor and Cambridge IGCSE ICT Tutor.**

Hope Academy Schools, Kwang, Rayfield, Plateau State. (2020 Till Date)

I am an AP Computer Science Principles tutor, I introduce learners:

- to the breadth of the field of computer science.
  - to design and evaluate solutions
  - to apply computer science to solve problems through the development of algorithms and programs.
  - to incorporate abstraction into programs and use data to discover new knowledge.
  - to explain how computing innovations and computing systems—including the internet—work, by exploring their potential impacts, and contributing to a computing culture that is collaborative and ethical.
-

I instruct and prepare learners for CISCO IT Essentials course, which enables learners to perform the following after completing the course:

- Describe the components of a personal computer
- Perform a step-by-step assembly of a desktop computer, install and navigate an operating system
- Describe how to protect self, equipment, and the environment from accidents, damage, and contamination
- Explain and perform preventive maintenance
- Explain the steps of the troubleshooting process and perform basic troubleshooting
- Upgrade or replace components of a laptop, printer, or scanner based on customer needs
- Configure computers to attach to an existing network
- Implement basic physical and software security principles
- Apply good communication skills and professional behavior while working with customers
- Assess customer needs, analyze possible configurations, and provide solutions or recommendations for hardware, operating systems, networking, and security

#### **NATIONAL YOUTH SERVICE CORPS (NYSC)**

Government Secondary School, Dadin-Kowa, Langtang-South, Plateau State. (2020)

- I taught Computer Studies and Data Processing in the Junior and Senior Secondary School respectively. I developed teamwork, communication and management skills.

#### **SOFTWARE DEVELOPER I**

Ekiti State University, ICT centre, Web/Software Development Department, Ado-Ekiti, Ekiti State. (2017)

- Assisted in the development of web and mobile applications using HTML, java and python programming languages, Bootstrap framework, and Android studio tools.
  - Participated in code reviews and contributed to the development of best practices for code quality and maintainability.
  - Collaborated with cross-functional teams to gather requirements and design solutions.
  - Troubleshoot and resolved issues reported by clients and end-users.
  - Contributed to the development of new features and enhancements to existing applications.
-

- Maintained codebase integrity and ensured compliance with coding standards and best practices.
