

Arogunjo, Adeseye Muyiwa obtained his BSc degree as the best graduating student in Physics from the University of Ilorin in 1991 and thereafter proceeded to the University of Ibadan where he obtained a Master's Degree in Radiation and Health Physics. In 2002, he bagged his PhD in Radiation and Health Physics from the Federal University of Technology, Akure (FUTA). He became a Professor in the Department of Physics at FUTA in 2010.

In 2003, he was a Research fellow at the International Centre for theoretical Physics (ICTP) in the framework of TRIL programme at the Di Fisica Medica, Universita degli studi di Milano, Italy. He was in Germany from 2006 to 2007 as an Alexander von Humboldt Fellow at the International Fellowship of Alexander von Humboldt at GSF - Institut für Strahlenschutz, AG Medizinische Physik, Ingolstädter Landstr. 1, Neuherberg - Germany.

At various times, he has received both national and international research grants and awards including the University of Ilorin Scholar award 1989/90 and 1990/91 academic Sessions; the FUTA Staff Development Grant, Federal University of Technology, Akure, Ondo State in 1998 which covers tuition fee and an additional sum of N50,000.00; the Best Corp liaison officer of the Year, National Youth Service Corps, Taraba State – 1992; the Taraba State NYSC merit award winner, 1992; the Alexander von Humboldt Return Fellow Grant on the project titled “Determination of uranium and thorium intake in local foodstuffs and the radiological impact on the daily urinary excretion of unexposed population in Nigeria” (Euro 6,500); the Alexander von Humboldt Book Grant (Euro 1,000); and the Alexander von Humboldt Equipment Grant (Euro 20,000).

Professor Arogunjo is a member of the Nigerian Institute of Physics (NIP); Science Association of Nigeria (SAN); Nigerian Society of Radiological Protection (NSRP); and the International Radiological Protection Association (IRPA). He is happily married with four children.
